SUBPART 5301.1 – PURPOSE, AUTHORITY, AND ISSUANCE

5301.101 Purpose

The Air Force Federal Acquisition Regulation Supplement (AFFARS) establishes uniform policies and procedures for the Air Force implementing and supplementing the Federal Acquisition Regulation (FAR), the Department of Defense FAR Supplement (DFARS), and other Department of Defense publications concerning contracting. AFFARS Mandatory Procedures (MP) and Procedures, Guidance, and Information (PGI) are companion resources arranged by parts, which correspond to the relevant FAR parts. Supplements to the AFFARS and MPs are prohibited.

5301.105-1 Publication and Code Arrangement

(a)(S-90) The AFFARS is published on www.Acquisition.gov.

5301.170 Peer Reviews

(a) DPC Peer Reviews.

(2) To facilitate planning for and execution of DoD Peer Reviews (see [DFARS 201.170](#) for applicable competitive and noncompetitive thresholds) and clearances by the DAS(C)/ADAS(C) (see [5301.9001 Policy, Thresholds, and Approvals](#)), the SCO must ensure the rolling forecast data is current in the [reporting tool](#) as of the 15th of March, June, September, and December each year. SAF/AQC will submit the consolidated Peer Review forecast to OUSD(A&S)/DPC at the end of each quarter. When DoD Peer Review is required, follow the procedures in [MP5301.9001 \(i\)\(1\)\(i\)-Business Clearance Approval by the DAS\(C\)/ADAS\(C\)\(a\)\(1\)\(i\)\(A\)\(2\)\(g\)](#).

(b) Component Peer Reviews. Pre-award peer reviews of solicitations for competitive procurements and pre-award peer reviews for non-competitive procurements not subject to the requirements of [DFARS 201.170\(a\)\(1\)\(i\) or \(ii\)](#) must be accomplished by complying with the clearance requirements in [SUBPART 5301.90 – CLEARANCE](#).

SUBPART 5301.2 – ADMINISTRATION

5301.201-1 The Two Councils

(d)(i) Proposed revisions to the FAR or the DFARS must be submitted through the SCO to [SAF/AQCP](#) in accordance with DFARS 201.201-1(d)(i).

5301.201-90 Maintenance of the AFFARS

The AFFARS is prepared and maintained by the Chief, Contract Policy & Field Support Division, Deputy Assistant Secretary (Contracting) (SAF/AQCP).

SUBPART 5301.3 – AGENCY ACQUISITION REGULATIONS

5301.301 Policy

(a)(1)(S-90) The AFFARS is issued by the DAS(C) on behalf of the Senior Procurement Executive (SPE).

5301.304 Agency Control and Compliance Procedures

(c)(4) MAJCOMs, DRUs, AFRCO, SpRCO and SMC must follow the approved [AF Clause Control Plan](#). The use of nonstandard clauses requires an approved D&F addressing the criteria outlined in DFARS PGI 201.301(b)(iii). Contracting officers may utilize the [Air Force Non-Standard Clause Control Template](#) to obtain approval of the clause. The approval authority for clauses used in accordance with 4.b., 4.c., and 4.d. of the AF Clause Control Plan has been delegated to one level above the contracting officer. Prior to using a reopener clause, the contracting officer must document the D&F that its use is the most appropriate means of overcoming a contingency that could affect contract price and obtain approval from the SCO. The SCO must submit a copy of the approval to [SAF/AQCP](#) and provide a copy to all SCOs. See paragraph 4 of the AF Clause Control Plan for clauses requiring OUSD(A&S)/DPC approval.

SUBPART 5301.4 – DEVIATIONS FROM THE FAR

5301.402 Policy

(2) Submit requests for deviations requiring USD(A&S)/DPC approval through the SCO to [SAF/AQC](#) for processing. See the tailorable [Deviation Request](#) template.

5301.403 Individual Deviations

(1)(i) SCOs are authorized to approve individual deviations except as described in (ii) below or as described in DFARS 201.402(1) and DFARS 201.403(2).

(ii) SAF/AQC is the approval authority for individual deviations from FAR 15.3, AFFARS 5315.3, and MP5315.3. Contracting officers may use the [Deviation Request](#) template. Deviation requests must be submitted through the SCO to [SAF/AQC](#) for approval. This approval authority must not be further delegated. When a proposed deviation, as described herein, also requires a waiver from DFARS 215.3, DoD Source Selection Procedures, the waiver process in MP5315.3, para 1.2.4., must also be followed.

5301.404 Class Deviations

(b)(i) USD(A&S)/DPC is the approval authority for any class deviation described in DFARS 201.402(1), class deviations from DFARS 215.3, and class deviations that meet the criteria in DFARS 201.404(b)(II)(A-D). Submit requests through the SCO to [SAF/AQC](#) for processing to USD(A&S)/DPC for approval.

(ii) The DAS(C)/ADAS(C) is the approval authority for class deviations from FAR 15.3, AFFARS 5315.3, and MP5315.3. Contracting officers may use the [Deviation Request](#) template. Requests must be submitted through the SCO to [SAF/AQC](#) for approval.

(iii) SCOs are authorized to approve class deviations except as restricted by paragraphs (i) and (ii) above. Class deviation approval authority is not delegable.

SUBPART 5301.6 – CAREER DEVELOPMENT, CONTRACTING AUTHORITY, AND RESPONSIBILITIES

5301.601 General

(a)(i) Heads of Contracting Activities (HCAs) Responsibilities.

(A) The DAS(C) and Associate Deputy Assistant Secretary (Contracting) (ADAS)(C) are the HCA for the Air Force and are designated the authority to enter into, approve, terminate, and take all other appropriate actions with respect to contracts and agreements (grants, cooperative agreements, and Other Transactions). All nondelegable HCA responsibilities may be exercised only by the DAS(C) and ADAS(C). The DAS(C) makes the delegations for all delegable HCA responsibilities, including the authority to enter into, approve, modify, and terminate contracts, in MP5301.601(a)(i). MP5301.601(a)(i) also establishes the authority to further redelegate.

5301.601-90 Head of Agency (HoA), Senior Procurement Executive (SPE), and Service Acquisition Executive (SAE) Responsibilities

See

5301.601-91 Air Force Contracting Self-Inspection Program

(a) The Air Force Self-Inspection program assesses compliance with federal laws, regulatory policies, DoD and AF directives, and instructions across the enterprise. It is also used to verify adequacy of contract preparation.

(b) SCOs will manage a self-inspection program, which includes both the assessment of individual contract files and the assessment of contracting management programs contained in the Contracting Self-Assessment Communicator (SAC) as required by [AFI 90-201](#), *The Air Force Inspection System*. As a minimum, contracting offices must perform self-inspections of individual contract files on an annual basis.

(c) For self-inspection of individual contract files reviewed after award, SCOs may use the [Air Force Contracting Self-Inspection Checklist](#); a comparable organizational checklist for post award reviews; or any combination thereof.

(d) SCOs will ensure corrective actions are implemented as a result of any self-inspection. Contracting offices must have a documented program for self-inspection, to include a process for closing resolved findings in a timely manner, ensuring an effective level of review necessary to close a finding, and integrating findings and resolutions into unit training.

5301.602-1 Authority

(a) Contracting officers are authorized to enter into and execute contracts funded either partially or completely with non-appropriated funds.

5301.602-2 Responsibilities

(c)(i) Legal Review

(A) Contracting officers must obtain legal advice during all phases of acquisitions. See the tailorable [Legal Review](#) template. In particular, contracting officers must obtain legal advice, coordination, and review from the supporting legal office for the following situations, regardless of dollar amount:

- (1) When there is doubt or controversy about the interpretation or application of statutes, directives, and regulations;
- (2) When using or applying unique or unusual contract provisions;
- (3) When actions are likely to be subject to public scrutiny or receive higher-level agency attention;
- (4) When a protest or claim is likely;
- (5) When contemplating the use of alternative dispute resolution;
- (6) Use of liquidated damages provisions in contracts for other than construction;
- (7) (deleted);
- (8) Source selection decisions and supporting documentation for actions accomplished pursuant to the requirements of MP5315.3;
- (9) Issues dealing with licensing, technical data rights and patents;
- (10) Mistakes in bid (See FAR 14.407);
- (11) Protests before and after award;
- (12) Ratifications;
- (13) Disputes;
- (14) Contractor claims;
- (15) Termination for default/cause;
- (16) Terminations for convenience, except cancellations or terminations of purchase orders;
- (17) Debarment or suspension actions;
- (18) Individual or class deviations; and,
- (19) Any other legal issue at the discretion of the contracting officer or supporting legal office.

(B) All Justifications and Approvals (J&A) requests for actions expected to exceed \$750,000

(C) In addition to the general conditions identified in [5301.602-2 Responsibilities](#)(c)(i)(A) above, contracting officers shall exercise good judgement in seeking legal review if the

total value of the contract action is less than the thresholds listed in this paragraph and guard against using reviews as a means of quality control. Contracting officers must obtain legal review of Operational contract actions expected to exceed \$1,000,000 and AFDW, AFMC and SSC Non-Operational contract actions expected to exceed \$5,000,000, as follows:

- (1) Solicitations and amendments, except administrative amendments;
- (2) Proposed contracts and modifications;
- (3) Orders for supplies or services issued under indefinite delivery type contracts (FAR 16.5), including GWACs, and Federal Supply Schedules (FSS), that require negotiation at the order level; and
- (4) Orders under Blanket Purchase Agreements (BPA) established under FSS.

(D) Legal review is not normally required for:

- (1) Funding actions without any other changes;
- (2) Unilateral exercise of pre-priced options that were reviewed and approved at the time of award of the basic contract; or
- (3) Except as indicated at 5301.602-2(c)(i)(C)(3), order solicitations and orders issued against existing contracts in accordance with all terms and conditions of the basic contract.

(d) For Designation, Assignment, and Responsibilities of a Contracting Officer's Representative, see MP5301.602-2(d).

5301.602-3 Ratification of Unauthorized Commitments

(b) *Policy.*

(2) Ratification approval authority is delegated as follows (see MP5301.601(a)(i)):

- (A) The SCO for actions equal to or greater than \$30,000.
- (B) The COCO for actions less than \$30,000 (not redelegable).

5301.603-1 General

The HCA designees delegated contracting authority in accordance with MP5301.601(a)(i) must select and appoint contracting officers and terminate their appointments in accordance with this section and MP5301.603-90.

(a) The SCO may delegate this authority to the highest contracting official in the contracting chain at geographically separated organizations, but in no event will the designee be lower than a GS-15 (or equivalent) or 0-6. AFICC/CC SCCO may delegate authority to select and appoint contracting officers (and terminate their appointments in accordance with AFFARS 5301.603-1 and MP5301.603) to the AFICA/KO (OL-SOC) Director of Contracting.

(b) Authority to issue limited contracting officer warrants of less than \$5M and authority to terminate appointments of less than \$5M may be delegated, but in no event will the designee be lower than the COCO.

5301.603-2-90 Selection

See [MP5301.603-90 Selection, Appointment, and Termination of Appointment of Contracting Officers](#), Selection, Appointment, and Termination of Appointment of Contracting Officers for mandatory procedures regarding the selection, appointment, and termination of contracting officers.

5301.603-3 Appointment

(b) Issuing authorities identified in [5301.603-1 General](#) above may delegate the purchase authority described in [FAR 1.603-3\(b\)](#) and [DFARS 201.603-3\(b\)](#), to non-contracting DoD civilian employees and members of the U.S. Armed Forces, such as transportation personnel, medical supply personnel, librarians, and chiefs of construction management, provided:

- (1) The written delegation specifies a dollar limit per transaction (e.g., per order, per call); the method(s) of award; and the supplies, equipment and/or non-personal services, to include construction, related to the individual's specialty that may be procured. For example, librarians may buy books, but not construction materials or services; and,
- (2) Personnel have completed contracting training commensurate with the type of instrument(s) authorized to process and level of responsibility delegated.

5301.670 Appointment of Property Administrators and Plant Clearance Officers

(a) When the Air Force retains contract administration, the PCO must select, appoint, or terminate (in writing) property administrators and plant clearance officers. One level above the PCO shall approve any of these appointments.

SUBPART 5301.7 – DETERMINATIONS AND FINDINGS

5301.707 Signatory Authority

(a) Determinations and Findings (D&F) for actions requiring Senior Procurement Executive (SPE) or SAF/AQ approval must be coordinated with the DAS(C) or the ADAS(C). After coordination with the SCO, the contracting officer must submit determinations to [SAF/AQC](#) for processing to SAF/AQ for approval. Allow 18 days for staffing and approval after receipt by [SAF/AQ](#). Include the approved acquisition strategy (or a draft acquisition strategy if the strategy document has not been approved) with the D&F package.

(b) The contracting officer must submit D&Fs for actions requiring DAS(C)/ADAS(C) approval to [SAF/AQC](#) after coordination by the SCO. Allow 7 days for staffing and approval after receipt by SAF/AQC unless otherwise specified.

(c) D&Fs involving small business matters must be coordinated with local Small Business Professional and/or MAJCOM/FIELDCOM/DRU Center Small Business Director, as appropriate, and, at SAF level, with [SAF/SB](#). Copy SAF/SB on D&F packages sent to SAF/AQC.

SUBPART 5301.90 – CLEARANCE

5301.9000 Scope and Definitions

(a) This subpart establishes clearance requirements for the contract actions identified below:

- (1) An action intended to result in award of any contract or modification of any contract;

 - ii. Addition of any terms or conditions that are not included in the basic ID/IQ contract, and/or changes to the existing terms or conditions of the basic ID/IQ contract.

(c) “Business Clearance” means:

- (1) For competitive acquisitions, approval to issue the solicitation.
- (2) For noncompetitive contract actions, approval to begin negotiations.

(d) “Begin negotiations” means, for the purpose of noncompetitive contract actions, starting discussions with an offeror for the purpose of reaching agreement on all aspects of the proposal. Initiation of audits and fact-finding necessary to evaluate the proposal and develop the Government’s negotiation objective do not constitute negotiations.

(e) “Contract Clearance” means:

- (1) For competitive acquisitions conducted without discussions, approval by the clearance approval authority (CAA) for the Source Selection Authority (SSA) to make the decision to award.
- (2) For competitive acquisitions with discussions –

- (i) Approval by the CAA for the SSA to request final proposal revisions in accordance with FAR 15.307; and
- (ii) Approval by the CAA for the SSA to make a source selection decision.

- (3) For noncompetitive contract actions, approval by the CAA to award a contract or contract modification/contract action.

(f) “Clearance Reviewer (CR)” means the independent reviewer and the primary advisor to the CAA for clearance. The CR ensures the CAA has the information needed to make an informed decision. The CR identifies deficiencies, assists in resolution, and advises the CAA as appropriate. When the CR is not from the designated CR office or individual identified in the PGI and is selected by the CAA, the CR must be an experienced contracting professional, a Government employee, and must not review their own contract action.

(g) “Clearance Approval Authority (CAA)” means the individual identified at 5301.9001(i)(1).

(h) “Clearance Review” means the independent review performed by the designated CR office or individual identified in the PGI, or as otherwise selected by the CAA.

5301.9001 Policy, Thresholds, and Approvals

(a) The objectives of the business and contract clearance process are to ensure that:

- (1) Contract actions effectively implement approved acquisition strategies;
- (2) Negotiations and contract actions result in fair and reasonable business arrangements;
- (3) Negotiations and contract actions are consistent with laws, regulations, and policies; and
- (4) An independent review and assessment by the clearance authority for the proposed contract action is accomplished.

(b) The CAA must ensure that the clearance process meets the objectives in paragraph (a) above. See AF PGI 5301.9001(b) for guidance on the use of multi-functional independent review teams (MIRTS) in conjunction with competitive acquisitions.

(c) The CAA must seek legal advice (see 5301.602-2(c)(i)) and ensure that counsel has coordinated on any clearance briefings or presentations, and that counsel’s comments are included in the briefing or presentation.

(d) Only one clearance review may be performed prior to the contract action being presented to the CAA. The CR is responsible for the clearance review. The CAA may select an alternate CR who meets the requirements identified in paragraph 5301.9000(f). The CAA, in conjunction with the SCO, has the authority to waive the clearance review.

(e) At the discretion of the CAA, contract clearance is not required when the negotiation team stays within the pre-set negotiation range and the parameters approved at the business clearance.

(f) If a CAA requires clearance for competitive order solicitations or orders when excluded in accordance with 5301.9000(b)(6), the SCO must submit a written justification to [SAF/AQC](#) upon execution.

(g) The Source Selection Authority (SSA) must not be the CAA

(h) The Milestone Decision Authority, PEO, or lead program manager must coordinate and/or participate in business clearance briefings.

(i) Contract actions meeting the contract value thresholds set below must not be awarded without obtaining the required [business and contract clearance approval](#). Contract value is determined by the definition in FAR 1.108(c) and AF PGI 5301.108(c).

(1) Clearance Approval:

(i) The DAS(C) or ADAS(C) is the business clearance approval authority for all contract actions $\geq \$1B$; and any other contract action identified as special interest by the DAS(C) or ADAS(C) regardless of dollar amount. The DAS(C) or ADAS(C) may delegate clearance authority on a case-by-case basis. The procedures in MP5301.9001(i)(1)(i) must be followed for clearance with the DAS(C) or ADAS(C). SCOs retain contract clearance approval authority.

(ii) The CAA is the approval authority for all contract actions as delegated in TABLE 1 below. The Table 1 thresholds represent the minimum delegation that must be made. SCOs may increase the specified dollar thresholds at their discretion.

(iii) If a SCO reduces the thresholds or withholds the clearance approval authority from the designees in TABLE 1 below, the SCO must notify [SAF/AQC](#). If the SCO reduces or withholds clearance approval authority for more than six months, the SCO must brief the DAS(C) regarding the circumstances surrounding the decision.

Unit	Clearance Approval Authority	Clearance Approval Authority	Clearance Approval Authority $\geq \$1B$
Operational	$COCO \leq \$10M$	$SCO > \$10M \text{ to } < \$1B$	DAS(C) / ADAS(C)
Enterprise	$COCO \leq \$50M$	$SCO > \$50M \text{ to } < \$1B$	DAS(C) / ADAS(C)
PEO (Systems)	$COCO \leq \$100M$	$SCO > \$100M \text{ to } < \$1B$	DAS(C) / ADAS(C)

TABLE 1(iv). To facilitate planning for SAF/AQC Clearance approvals, SCOs must use the [reporting tool](#) to project SAF/AQC Clearance approvals.

(2) For PEO and Enterprise contracting, business and contract clearance are required for actions greater than or equal to \$5M.

- (3) For Operational contracting, business and contract clearance are required for actions greater than or equal to \$3M.
- (4) SCOs are responsible for ensuring all further delegations of clearance approval authorities are included in the PGI.
- (5) When a contracting official is the Source Selection Authority (SSA) for a particular acquisition, the CAA must be a level above the contracting official. If the SCO or their deputy is the SSA, the CAA for that acquisition must be the DAS(C)/ADAS(C). [Clearance requests](#) must be sent to [SAF/AQC](#) for approval by the DAS(C)/ADAS(C).

SUBPART 5301.91 – OMBUDSMAN PROGRAM

5301.9101 Purpose

The purpose of the Air Force ombudsman program is to foster communication between Government and industry. The primary function of the ombudsman is to hear concerns about specific issues in acquisitions, to communicate these concerns to senior management personnel responsible for oversight and to assist in the resolution of the concerns. In accordance with below, employees, managers and customers may use the Air Force component ombudsman when seeking assistance in resolving procurement integrity issues.

5301.9102 Policy

- (a) MAJCOM/DRU/AFRCO/SMC/SpRCO Commanders must appoint an experienced senior official who is independent of the contracting officer and program manager as the ombudsman at their organization. For AFMC Centers, an ombudsman is required at each Center, instead of at the MAJCOM. Centers may also have an ombudsman at each Operating Location/Geographically Separated Unit.
- (b) The ombudsman will have the authority to call upon other resources of the activity to assist in resolving acquisition issues or concerns (e.g., administrative support, independent review teams).
- (c) Contracting officers must identify the ombudsman in the initial announcement of the acquisition as well as in the draft and final RFP.
- (d) The ombudsman must:
 - (1) Support acquisition personnel in the resolution of issues or concerns raised by interested parties;
 - (2) Act in a manner that does not compromise the interested party and, if requested, maintain anonymity of the parties;
 - (3) Avoid any appearance of usurping normal procurement authority (e.g., program manager, contracting officer, and source selection authority);
 - (4) Ensure all affected or knowledgeable offices and officials are consulted as part of any resolution process;
 - (5) Inform the Commander/Director, or PEO, as required, of issues raised and actions taken;
 - (6) Review complaints relative to multiple-award task and delivery order contracts awarded under 10 U.S.C. 2304a(d)(1)(B) or 2304b(e) to ensure that all contractors are afforded a fair opportunity to be considered for task and delivery orders in excess of the micro-purchase threshold, consistent with the procedures in the contract;

(7) Consistent with security requirements, have access to the appropriate offices and be allowed to collect all facts relevant to the resolution of issues raised by interested parties. Ombudsmen are granted access to proprietary information. Source selection information must be obtained through the source selection authority.

(e) The Ombudsman Program does not replace the agency level protest, GAO bid protest or disputes processes.

(f) The Air Force ombudsman is the ADAS(C), who may take action to assist in resolving issues, concerns, disagreements, and recommendations that cannot be resolved at the MAJCOM/DRU/SMC level, or for those having Air Force wide implications. The ADAS(C) is the AF ombudsman for procurement integrity issues (see [OUSD\(AT&L\)/DPAP memo, 1 Oct 09](#)).

(g) Government personnel may use the Ombudsman Program as a way to express concerns about an acquisition.

5301.9103 Solicitation Provision and Contract Clause

Insert a clause substantially the same as the clause at , Ombudsman, in all solicitations (including draft solicitations) and contracts.

5315.405 Price Negotiation

(d) In situations where a contractor inadequately supports the proposed price as fair and reasonable despite all attempts by the contracting officer to secure adequate justification through negotiations, these situations should be elevated and documented as described herein. The contracting officer shall also inform the contractor that such action has been taken and continue to attempt to negotiate a fair and reasonable cost/price.

(1) If the Egregious Pricing situation is not resolved through negotiations, the offeror is ineligible for award unless the HCA determines, in writing, that it is in the best interest of the Government to make award to that offeror, based on consideration of the following:

- (i) The program or mission partner need for the item(s) or service(s) in terms of the specific mission contribution;
- (ii) The challenges to reaching and efforts made to reach a fair and reasonable cost/price; and
- (iii) Increased cost or harm to the Government if award is not made.

(2) The PEO or Wing Commander (or other corresponding authority) and SCO shall certify to the HCA that the conditions listed in 5315.405(d)(1) exist and award should be made. (3) Contracting officers, with coordination from the cognizant SCO, must report price negotiation situations, where 5315.405(d)(1) applies, to SAF/AQC no later than 30 days after negotiations have concluded. Update the [Egregious Pricing Incident Report Form](#) completed under 5315.405(d) with post-negotiation information and submit a copy of the final negotiation memorandum and D&F as attachments.

(4) The procedures specified in 5315.405(d)(1-3) above apply to situations where certified cost and pricing data are required and to situations when certified cost and pricing data are not required. If used in situations where other than certified cost or pricing data is required and [FAR 15.403-3\(a\)](#)

ORGANIZATIONAL CONFLICT OF INTEREST (OCT 2019)

(a) The following restrictions and definitions apply to prevent conflicting roles which may bias the Contractor's judgment or objectivity, or to preclude the Contractor from obtaining an unfair competitive advantage in concurrent or future acquisitions.

(1) Descriptions or definitions:

"Contractor" means the business entity receiving the award of this contract, its parents, affiliates, divisions and subsidiaries. "Development" means all efforts towards solution of broadly-defined problems. This may encompass research, evaluating technical feasibility, proof of design and test, or engineering of programs not yet approved for acquisition or operation. "Proprietary Information" means all information designated as proprietary in accordance with law and regulation, and held in confidence or disclosed under restriction to prevent uncontrolled distribution. Examples include limited or restricted data, trade secrets, sensitive financial information, and computer software; and may appear in cost and pricing data or involve classified

information. "System" means the system that is the subject of this contract. "System Life" means all phases of the system's development, production, or support. To avoid the prospect of the Contractor's judgment or recommendations being influenced by its own products or capabilities, it is agreed that the Contractor is precluded for the life of the system from award of a DoD contract to supply the system or any of its major components, and from acting as a subcontractor or consultant to a DoD supplier for the system or any of its major components.

(End of clause)

ALTERNATE II (OCT 2019). As prescribed in , either substitute paragraph (a)(2) of the basic clause with the following paragraph, or add the following in addition to the basic restriction. Renumber the paragraphs as needed if more than one restriction applies. Use this paragraph, substantially as written.

(a)(2) The Contractor shall participate in the technical evaluation of other Contractors' proposals or products. To ensure objectivity, the Contractor is precluded from award of any supply or service contract or subcontract for the system or its major components. This restriction shall be effective for (insert a definite period of time). This does not apply to other technical evaluations concerning the system.

ALTERNATE III (OCT 2019). As prescribed in , add the following paragraph (b) to the basic clause substantially as written: (b) The Contractor may gain access to proprietary information of other companies during contract performance. The Contractor agrees to enter into company-to-company agreements to: (1) protect another company's information from unauthorized use or disclosure for as long as it is considered proprietary by the other company; and, (2) to refrain from using the information for any purpose other than that for which it was furnished. For information purposes, the Contractor shall furnish copies of these agreements to the contracting officer. These agreements are not intended to protect information which is available to the Government or to the Contractor from other sources and furnished voluntarily without restriction.

ALTERNATE IV (OCT 2019). As prescribed in , add the following paragraph (b) to the basic clause. If Alternate III is also used, renumber this to paragraph (c).

(b) The Contractor agrees to accept and to complete issued delivery orders, provided that no new organizational conflicts of interest are created by the acceptance of that order. The contracting officer shall identify the organizational conflict of interest in each order. The Contractor shall not contract with Government prime Contractors or first-tier subcontractors in such a way as to create an organizational conflict of interest.

ALTERNATE VI (OCT 2019). As prescribed in , add the following paragraph (b) to the basic clause substantially as written. If either Alternate III or IV or both are used, renumber this paragraph accordingly.

(b) The above restrictions shall be included in all subcontracts, teaming arrangements, and other agreements calling for performance of work which is subject to the organizational conflict of interest restrictions identified in this clause, unless excused in writing by the contracting officer.

(c) The organizational conflict of interest clause included in this solicitation may be modified or deleted during negotiations.

(End of provision)

1.1 As part of the acquisition planning process, the CO must determine the nature of the work/requirement (Type A, B, or C) as specified in [DoDI 5000.72](#), *DoD Standard for Contracting Officer's Representative (COR) Certification*.

1.2 If the requiring activity has not yet initiated a COR nomination, the CO must initiate the [Request for COR Support](#) to notify the requiring activity of the need for COR(s) support and to prompt requiring activity nomination of a qualified COR via the Joint Appointment Module (JAM) (formerly CORT Tool) in Procurement Integrated Enterprise Environment (PIEE). 1.2.1 The Request for COR Support memorandum initiated by the CO should be routed through requiring activity (e.g., COR Supervisor, Functional Commander/Director (FC/FD)). See Enclosure 5 of [DoDI 5000.72](#), Qualification Requirements for CORs and Enclosure 6 of [DoDI 5000.72](#), Examples of COR Responsibilities and COR Certification Requirements. The COR must file the CO's Request for COR Support memorandum (if used) in the "COR Online File."

1.2.2 The CO must provide contract specific training (see paragraph 1.3.7). COR management is responsible for ensuring that any COR performing under a waiver pursuant to sections 1701-1764 of Title 10, United States Code completes all required training. New entrant and required DoD Component provided ethics and combating trafficking in persons (CTIP) training may not be waived.

1.2.3 The CO shall perform, with participation of the COR and COR supervisor, a yearly administrative review of the COR's online file during the anniversary month of appointment, or more often, at the discretion of the CO. The CO shall upload the COR File Annual Checklist to the Surveillance and Performance Monitoring (SPM) (Formerly CORT Tool) in PIEE comprised of the minimum requirements of DFARS PGI 201.602-2(d)(vi), and contract and COR-related documents necessary for the effective discharge of COR duties and responsibilities. The Checklist (available in SPM) shall guide the COR in populating the online COR File, and serve as the basis for the CO to judge the accuracy and completeness of the COR file during each review.

1.2.4 Upon completion of each CO review of the online COR File, the CO shall document the results on the COR File Annual Checklist, and upload each Checklist review to the SPM.

1.2.5 The [COR Designation](#) from the CO must also:

(a) Designate the COR (if required) as an Assessing Official Representation (AOR) supporting the CPAR process;

- (b) Stipulate that the COR will be required to have access to the Synchronized Pre-Deployment & Operation Tracker (SPOT) (if required due to overseas deployment support); and
- (c) Stipulate whether the COR will require access to the Enterprise-wide Contract Manpower Reporting Application (eCMRA).

1.2.6 Notification of COR designation should be provided to the QAPC.

1.2.7. Distribution of the fully executed COR designation must be made to the COR, COR Supervisor, Contractor and Property administrator. In addition, notification must be sent to the local Judge Advocate General office or Office of General Counsel immediately upon the appointment of a COR designated as an OGE Form 450 filer, and annually by January 1st, a list of all CORs required to file [OGE Forms 450](#).

1.2.8 In addition to the matters listed in AFFARS [5301.602-2\(c\)](#), contracting officers should obtain legal review for the following:

1.3 CO, Contract Specialist, or QAPC Led Training. The CO must ensure contract-specific training is scheduled and provided to the prospective COR, unless waived (see 1.2.2). The training may be conducted by the CO, Contracting Specialist, or QAPC, and must consist of the following at a minimum prior to contract award:

1.3.1 Duties/responsibilities to be delegated;

1.3.2 Importance of COR performance;

1.3.3 Personal conflicts of interest and potential conflicts of interest;

1.3.4 Unauthorized commitments;

1.3.5 Ethics/integrity in relationships with the CO, COR management (e.g., COR Supervisor, Services Designated Official (SDO), Functional Commander/ Directors (FC/FD)), and the contractor;

1.3.6 Discussion of the [Seven Steps to the Services Acquisition Process](#).

1.3.7 Contract-specific training consisting as a minimum of the following:

1.3.7.1 A discussion of the contract (SOW, PWS, Specifications, etc.), and surveillance plan/QASP;

1.3.7.2 An awareness of any areas in the contract susceptible to fraud, waste, and abuse;

1.3.7.3 Creation, maintenance, and submission of all surveillance documentation and contractor performance assessment information required by the contract and applicable regulations;

1.3.7.4 How the COR can stay abreast of contract modifications;

1.3.7.5 How the COR can monitor contract fund status; and,

1.3.7.6 Joint CO and COR review of the “COR File Annual Checklist” to ensure mutual understanding of the level/quality of surveillance and documentation must be maintained in the on-line SPM file.

1.3.8 Refer to the [Suggested Contract-Specific Training Syllabus](#) template for conducting contract-specific training. The template may be tailored to fit your acquisition.

COR Performance and Appraisal

1.4 At a minimum, the CO and COR supervisor must review the COR’s reports, files, and other documentation for completeness/accomplishment, on an annual basis.

1.5 The CO must provide an annual assessment, as a minimum, on the COR’s performance to the COR supervisor. The assessment may be performed concurrently with the administrative review of the COR online file detailed in 1.2.3.

- 1.6 The COR must complete and upload reports to the SPM, as required, to enable the CO to review and approve/ reject reports in the SPM.
- 1.7 When the CO terminates the COR's duties (see [Termination of COR Designation](#)), a new COR can be nominated prior to terminating the former COR. The requiring activity must nominate a COR replacement via the JAM to ensure continuous contract monitoring by a qualified individual. Copies of the designation for the successor COR will have the same distribution requirements as the COR letter of designation.
- 1.8 When the requiring activity requests termination of COR designation, the CO must terminate the COR designation in writing (use of the "Smart Form" in the JAM is authorized). Include the signed [Termination of COR Designation](#) in the official contract file.
- 1.9 The CO must forward a copy of the fully executed [Termination of COR Designation](#) to the COR, COR Supervisor, Contractor, and as applicable, to the contract administration office(r).

2.0 COR Roles and Responsibilities

- 2.1 Register for JAM and SPM access through the PIEE e-Business Suite at <https://wawf.eb.mil>, and complete training to effectively perform duties in the SPM. Training includes a review the JAM and SPM Users Guide and FAQs, and if necessary, a request for additional training from a local Department Administrator (DA).
- 2.2 Provide information necessary to assess whether any actual or potential personal conflicts of interest with performing the responsibilities to be designated exist. Conflicts of interest determination will be reviewed again prior to contract award.
- 2.3 Participate, as requested, in annual CPAR procedures and contract close-out.
- 2.4 Remain abreast of changes to terms and conditions of the contract resulting from contract modifications.
- 2.5 Perform only those duties/responsibilities delegated by the CO in the [COR Designation](#).
- 2.6 CORs may be designated as the Assessing Official's Representative (AOR) by the CO in the Contractor Performance Assessment Reporting System (CPARS) IAW the CPARS Guide. If designated as an AOR, the COR would be responsible for providing a timely, accurate, quality, and complete narrative for a report on the contractor's performance. If the CO requires the COR to have access to the contractor performance assessment reporting system (CPARS), the synchronized pre-deployment and operational tracker (SPOT) or the enterprise contractor manpower reporting application (eCMRA), an account would be authorized and granted after COR designation.

3.0 COR Supervisor

- 3.1 Register for SPM access via the Procurement Integrated Enterprise Environment (PIEE) e-Business Suite at <https://wawf.eb.mil>, and then complete training to effectively perform duties in the SPM. Training includes a review of the JAM and SPM Tool Users Guide and FAQs, and if necessary, a request for additional training from a local DA.
- 3.2 Review and approve (certify) or reject COR nominations in the JAM, when submitted by an assigned COR in the JAM and notified by a system-generated email that a nomination is "Awaiting Approval".
- 3.3 The COR Supervisor shall ensure that the COR completes and uploads COR Reports to SPM, as required, to enable the CO to review and approve/ reject reports in the SPM.
- 3.4 Conduct regular reviews of COR inputs into SPM, and follow-up as necessary, on the content, timeliness, and completeness of COR Reports, online files, and other COR-related documentation.

3.5 If a Chief-Contracting Officer's Representative (C-COR) is appointed for a service contract pursuant to [AFI 63-138](#), *Acquisition of Services, Chapter 2*, the C-COR must maintain the sole online COR file in SPM for the contract. When a CO appoints a C-COR and CORs on the same contract, the relationship shall be annotated on the COR Designation.

4.0 OGE 450 Determination and Processing

4.1 A COR must file an [OGE 450](#) if determined to meet the criteria for filing a Confidential Financial Disclosure Report (OGE Form 450) as set forth in section 2634.904 of Title 5, Code of Federal Regulations, and section 7-300 of DoD 5500.07-R.

4.1.1 A COR need not be designated as an OGE 450 filer, IAW section 2634.904 of Title 5, if all of the following apply:(a) The COR will NOT participate personally and substantially in any contracting process,

(b) The COR will NOT exercise substantial discretion, through interactions, decisions, or reports, that will influence the contractor's activities and result in a substantial economic effect on the contractor's interests,

(c) The COR's work and judgment WILL BE subject to "substantial supervision and review" by the CO & COR Supervisor, with final authority deferred to the CO for contractor direction and contract-related matters, and

(d) The COR's actions will NOT cause any conflict of interest (real or apparent) between the interests of the COR and the government and/or the contractor

4.2 The COR must submit the completed [OGE 450](#) directly to his or her supervisor and provide the information contained on the OGE 450 to the CO for review prior to submission to the local legal office by the required date.

5.0 Quality Assurance Program Coordinator (QAPC)

5.1 Train CORs and COR management [e.g., COR Supervisor, SDO, Functional Commanders/Directors (FC/FD)] on the contracting requirements associated with the quality assurance program and any MAJCOM/DRU/AFRCO/SMC procedures prior to contract award. See paragraph 1.5 herein.

5.2 Assist the CO in providing contract-specific training (to include refresher training) to the COR (Reference paragraph 1.3 above) and ensuring required training is accomplished in accordance with [DoDI 5000.72](#), *DoD Standard for Contracting Officer's Representative (COR) Certification*, 26 Mar 15.

5.3 Monitor the inputs and use of SPM for the assigned organization. This requires registration, training, and designation as a local JAM/SPM DA or Manager Role by all QAPCs. DAs/Managers provide functional, not technical support, and provide for the continued deployment of JAM and SPM for new users and for the support of existing users in the local organization, by performing three categories of duties:

5.3.1 **GETTING STARTED:**(a) Advise or assist new users with initial JAM/SPM registration, or existing users with registration and profile updates, through the PIEE e-Business Suite platform;(b) Activate new roles (if designated as a DA) and added roles (only if a DA) after verifying proper completion of the automated DD2875; and,

(c) Conduct JAM SPM training or provide training resources to users.

5.3.2 **USER SUPPORT:**(a) Advise and assist on the functions & features of JAM/SPM;(b) Use Administrator or Manager privileges to research, troubleshoot, and advise on reported functional issues;(c) Refer users to the PIEE Helpdesk, when a reported issue involves accounts, errors, or technical support;(d) Monitor records of all COR nominations, designations, and terminations of designations, to include COR's acknowledgement of their duties, by contract number and CO's name;

(e) Monitor records of all COR and COR management training, including refresher training regardless of provider (e.g., QAPC, CO, contract specialist, contract administrator, Defense Acquisition University, or commercial training provider)

MP5301.603-90 Selection, Appointment, and Termination of Appointment of Contracting Officers

Back to Basics (BtB): Due to changes in the DoD certification program, some candidates may be unable to complete certification. An individual without certification may be selected for contracting officer appointment (limited or unlimited) if approved by the warrant issuing authority (SCO/COCO.)

(a) Applicability. This MP must be used when selecting, nominating, appointing, and terminating contracting officers (CO) to maximize standardization across the AF. Warrants are issued in accordance with [FAR 1.603](#), [DFARS 201.603](#), 10 USC 1724 and this MP. The SCO may delegate this authority to the highest contracting official in the contracting chain at geographically separated organizations, but in no event will the designee be lower than a GS-15 (or equivalent) or O-6. Authority to issue limited contracting officer warrants of less than \$5M and authority to terminate appointments of less than \$5M may be delegated, but in no event will the designee be lower than the COCO.

(b) Warranting. An individual selected for contracting officer appointment must be a military member in Air Force Specialty Code (AFSC) 64PX or 6C0X1 or a civilian in the GS-1102 occupational series who occupies a manned authorization listed under these specialty codes/series, and complies with the requirements at [DFARS 201.603-2](#) and this MP.

(c) Focal Point (FP). FPs must be designated in writing via the FP designation form and may be assigned unlimited or limited duties as indicated in the [Warrant Process Focal Point Designation Form](#). Each SCO is responsible for appointing FPs and must designate at least one FP with unlimited duties. SCOs may delegate authority to appoint "limited FPs" to perform Contracting Officer Test (COT) Proctor functions to the COCO. This authority is not further delegable. Follow the form instructions when appointing FPs.

(d) AF CO Warrant Tracking Tool. All warrants are entered into and tracked via the AF CO Warrant Tracking Tool ([AFCOWTT](#)). FPs obtain access to the AFCOWTT by submitting a copy of the Warrant Process Focal Point Designation Form to [HQ AFMC/PK](#). Prior to obtaining access, FPs must request training on the use of the AFCOWTT by contacting HQ AFMC/PK, as applicable. FPs are responsible

for entering all warrant data into the tool, and for uploading warrants (SF1402s) (and up to three past [SF1402s](#)), a copy of the COT certificate, and the [Contracting Officer Appointment/Warrant Eligibility Transfer/Termination Request \(COWER\)](#). FPs also administer all other warrant actions and are responsible for maintaining current, accurate, and complete warrant data in the AFCOWTT.

(e) CO Warrant Nomenclature. All transferable warrants shall list "Department of the Air Force" on the "Organization" and "Agency/Department" lines of the [SF1402](#). All transferable warrants are numbered as follows: the first two positions are "AF", the third and fourth positions are the last two digits of the fiscal year (FY) in which the appointment is made, and positions 5-9 are obtained from the identification (ID) field of the AFCOWTT; for example, in FY21 an ID field number of 12345 would yield an appointment number of AF-21-12345. Current transferable warrants will be updated through attrition. All new non-transferable warrants will be numbered as follows: Organization-FY-XXXXX e.g., SSC-21-12499 for SSC; positions 5-9 are obtained from the ID field of the AFCOWTT.

(f) Nominating Warrant Candidates. Warrant candidates are nominated by a candidate sponsor who shall be no lower than the candidate's first level supervisor. Submit warrant nominations to the designated FP using the COWER.

(g) AF Contracting Officer Test (COT). Candidates for warrants above the simplified acquisition threshold (SAT) must pass the two-hour timed, open book COT by achieving a minimum score of 80%.

(1) The COT is a proctored, computer generated test containing 25 randomly selected true/false and multiple-choice questions from the FAR, DFARS, and/or AFFARS. Each question is worth up to two points.

(2) During the COT, candidates are limited to the use of electronic regulations available via [www.acquisition.gov](#) and hard copies of the FAR and DFARS (free of tabs and notes); however, hard copies will not be provided. Notes and electronic devices are not permitted in the testing site. Use of email, instant messaging, or any other form of electronic communication is prohibited during the COT.

(3) Candidates must provide the correct answer and the correct, associated complete reference (e.g., [FAR 15.401\(a\)\(2\)\(i\)\(B\)](#)), in order to earn two points. If the candidate answers the question correctly but provides an incorrect reference, one point will be received. If the candidate answers the question incorrectly but the reference correctly, the candidate will not receive any points as this indicates a failure to understand the regulation. The COT is automatically and electronically scored.

(i) If the candidate fails to pass the COT, the candidate may challenge missed questions and/or references in accordance with the [Proctor User Guide](#) only when approval of the challenge would result in a passing score. (NOTE: Access to the guide is restricted to warrant focal points.)

(ii) A candidate who fails the COT may retake it if authorized by their immediate supervisor and space is available. If the candidate fails to pass the COT on the second attempt, the candidate may not retake the COT until a six month waiting period has passed.

(iii) Supervisors are authorized to approve a maximum of two continuous learning points per 12 month period for an individual who completes the COT, whether for a warrant request action or for training purposes.

(4) Practice COT: A practice test titled Contracting Officer Demo Test - C10979 was developed to help familiarize warrant candidates with the question structure of the COT. The practice test is available via the [myLearning site](#). It is a non-proctored, 50-minute, timed test consisting of ten questions which are electronically and randomly selected from a 20 question pool. Practice tests may not be administered on the SCORM site. There is no limit on the number of times the practice

COT may be taken. The completion of a practice test shall not be used as the basis for warrant eligibility.

(h) Unlimited Warrants. Warrants greater than \$25M require a minimum of two years of contracting experience, a baccalaureate degree, successful completion of the Contracting Officer Test (COT) and passing a warrant board. All unlimited warrants are transferable across the AF.

(1) Warrant Boards.

(i) Warrant boards are reserved exclusively for warrants greater than \$25M and are used to further assess the candidate's experience, qualifications, communication skills, and overall demeanor.

(ii) Warrant boards must be chaired by the appointing official or designee at a level no lower than:

- (A) Deputy Director or Assistant Director of Contracting;
- (B) Technical Director/Assistant to the Director of Contracting;
- (C) Chief of the Clearance and Program Support Division or Chief of Policy;
- (D) Highest level contracting official at a geographically separated organization; or
- (E) COCO, Deputy, or equivalent.

(iii) Warrant boards must have a minimum of five members, including the board chairperson, participating to constitute a quorum. Suggested board composition includes:

- (A) Contracting office supervisors;
- (B) Representative from the staff judge advocate office;
- (C) Competition Advocate;
- (D) Clearance/program support procurement analyst;
- (E) Small business specialist/liaison;
- (F) Supervisors/Directors/Deputy Directors from other disciplines; and/or
- (G) Cost/price analyst.

(iv) Warrant board members may participate in person, by teleconference, or video conference at the discretion of the board chairperson.

(v) The warrant candidate must correctly answer and/or discuss no fewer than 10 questions, seven of which must be obtained from the scenario-based AF question repository. To obtain access to the question repository, submit the Warrant Process Focal Point Designation Form to HQ AFMC/PK. The appointing official has the discretion to develop new questions(s) for the remaining three questions, which may be scenario- or knowledge-based. The board shall include questions that address PEO, Enterprise, and Operational portfolios, as well as pricing, fiscal law, contract law, legal, and problem solving.

(vi) The board chairperson/appointing official, in consultation with the board members, may appoint an unlimited warrant, a limited, specified dollar warrant, or none. Individuals awarded an unlimited warrant as a result of a warrant board shall not be required to sit before the board again.

(i) Limited Transferable Warrants. Warrants limited by a monetary threshold are transferable across the AF. Dollarized warrant limitations apply to the value of the instant contract action a CO is executing. For example, if a CO holds a limited warrant of \$5M and the contract award amount of the instant action is \$6M, the CO is not authorized to sign the contract; however, the same CO would be authorized to sign a \$5M funding action issued against the same contract.

- (1) For warrants up to but not in excess of the SAT, contracting personnel (including purchasing agents in the GS-1105 series) must have at least one year of contracting experience.
- (2) For warrants exceeding the SAT but less than \$5M, member must have at least 2 years of contracting experience and have successfully completed the Contracting Officer Test (COT). Warrant boards shall not be convened for warrants within this threshold.
- (3) For warrants equal to or greater than \$5M, but not more than \$25M require a minimum of two years of contracting experience, successful completion of the COT and vetting process established by the appointing official and documented on the COWER. Warrant boards shall not be convened for warrants within this threshold.

(j) Local National (LN) Warrants. LNs in an equivalent occupational series to GS-1102 may be selected for a contracting officer appointment in accordance with this MP.

- (1) Warrants for less than or equal to the SAT require a minimum of one year of contracting experience.
- (2) An LN candidate for a warrant above the SAT must meet the following minimum functional training, work experience, and formal education requirements:
 - (i) Complete all contracting courses as required for a member of the Defense Acquisition Workforce for certification in contracting required for the warrant amount;
 - (ii) Have at least two years of contracting experience; and,
 - (iii) Possess a baccalaureate degree (or the equivalent).
- (3) Warrants equal to \$5M but not greater than \$25M require a vetting process established by the appointing official and documented on the COWER.
- (4) Warrants greater than \$25M require a warrant board.

(k) A member of the contingency contracting force in AFSC 6C0X1 who does not possess a baccalaureate degree from an accredited institution may be nominated, evaluated, and selected for a limited warrant not to exceed \$25M in accordance with 10 USC 1724. Military and Civilian personnel with an active Department of the Air Force warrant, may use their existing warrant in support of Contingency Operations.

(l) Non-Transferable Warrants. Non-transferable warrants may be issued for specific functions or buying activities (e.g., contract closeout, defective pricing actions, funding modifications, administrative modifications, specific contracts, units, etc.) Candidates for limited non-transferable warrants above the SAT should pass the COT in accordance with this MP. Warrant boards shall not be used for non-transferable warrants; however vetting process may be used when the resultant contract actions are expected to exceed \$25M. The SF1402 must clearly state "Limited Non-Transferable Warrant" and cite the specific warrant limitations,

(m) Warrant Transfer and Reinstatement.

- (1) Warrants issued in accordance with this MP, with the exception of those issued in accordance with paragraph (l) above, are transferable across the AF. As long as a warrant is in good standing, an individual shall not be required to test or board again. However, warrant transferability does not guarantee immediate utilization, as the gaining appointing official may determine that time is needed to facilitate familiarity with new workload responsibilities and organizational procedures. Instructions regarding electronically transferring a warrant to a new organization are located in the AFCOWTT.
- (2) Warrant reinstatement is applicable to an individual who previously held an AF warrant and whose warrant was subsequently terminated for reasons such as reassignment or resignation. A request to reinstate an AF warrant must be submitted to the appointing official for approval through

the designated FP using the COWER. The appointing official shall document their assessment and rationale for warrant reinstatement on the COWER.

(n) Grandfathered Contracting Officers. Current COs are not required to be tested, boarded, or reappointed as a result of the issuance of, or changes to, this MP. However, those with limited non-transferable or limited transferable warrants must meet the requirements of this MP to obtain a transferable and/or higher dollar value warrant. Taking of the COT is only required for those candidates holding a limited non-transferable warrant.

(o) Warrants Issued Based on External Warrant Credentials. A new AF 1102 with external, federal government CO experience may be issued an AF warrant without meeting the requirements of this MP (COT and vetting process or warrant board) based on the discretion of the appointing official, provided they meet the qualification requirements at DFARS 201.603-2. The appointing official must conduct an assessment of the candidate's qualifications and experience prior to the issuance of an AF warrant. The appointing official shall document the rationale for appointment on the COWER ([See sample criteria.](#))

(p) Reissuance of Warrant Certificates. A request to reissue an existing warrant certificate for administrative purposes (e.g., damage to or deterioration of the original [SF1402](#), name changes, etc.) is not a new appointment and may be submitted directly to the FP for processing to the appropriate appointing official; use of the COWER is not required.

(q) Warrant Suspension or Termination for Cause. Warrants may be suspended or terminated for unsatisfactory performance. The appointing official may suspend a warrant in writing until proficiency is demonstrated to the satisfaction of the appointing official. If a warrant is terminated for cause, the candidate must be reappointed in accordance with paragraphs (h), (i), or (j) of this MP.

MP5305 - Publicizing Contract Actions

2019 Edition

Revised: 2 May 2022

MP5305.3 — SYNOPSES OF CONTRACT AWARDS

MP5305.303 Announcement of Contract Awards

The following mandatory procedure is provided for preparing 1279 Reports under DFARS 205.303 and Reports of Intent to Award multiyear contracts under .

(a)(i) The 1279 Report is used for Congressional notification and public announcement of contract awards that exceed the DoD threshold. Use the 1279 Report Format in (d), tailored where appropriate, when preparing Reports of Intent to Award IAW . It is important to note that the Notice of Intent to Award IAW does not satisfy the requirement for a 1279 Report.

(ii) Alternate 1279 reporting for the announcement of source selection contract awards. If the awardee information cannot be provided three days in advance, the report does not need to identify the offeror that has been selected for award. Insert “Source Selection Information - Will Advise” for “Contractor Data” and either “\$50 million or above” or “below \$50 million” for “Face Value” and “Funding Data”. When using these procedures, provide the successful offeror, face value of the award, and funding data to [SAF/LLP](#) no later than 1300 hours Eastern the day before the anticipated award date. If SAF/LLP is not notified by 1300 hours Eastern the day before the anticipated award date, announcement of the award may need to be delayed.

(b) After a 1279 Report has been submitted, report any changes in plans promptly to [SAF/LLP](#).

(c) When immediate award is required and advance notification under paragraph (a) above was not accomplished, prepare the 1279 Report as usual and send it to [SAF/LLP](#). Include the justification for immediate award. If the Congressional and public announcement cannot be made the same day as the award, the contracting officer must obtain the contractor’s agreement to withhold public announcement of the award until the award is posted on <https://www.defense.gov/News/Contracts/>. Include in the report a statement that this non-disclosure agreement has been made. The contracting officer will notify the contractor of the agreed upon date of public announcement. The award may then be made without the three-day coordination.

(d) Format (do not include classified information in the report):

(1) Format the SUBJECT line of the email as follows:

CUI: Release Date is DD MMM YY, Program Name, Contracting Activity, DD-LA-(AR) 1279 Report

(2) Release Date: Enter the date award is expected; exclude Saturdays, Sundays and holidays.

(3) Contract Action to be Taken (Select One): Contract Award, Contract Modification or Notice of Intent to Award

(4) The following information shall be included in the 1279 Report. The italicized information below serves as a placeholder for “fill-ins”. Utilize the paragraph format provided to ensure the contract announcement is published. Do not use abbreviations and use full names of all contractors, including all subsidiary and division designations as appropriate. MP5306.5 — COMPETITION ADVOCATES

MP5306.502 Air Force Competition and Commercial Advocacy Program

MP5315.3 Source Selection

1 PURPOSE, ROLES, AND RESPONSIBILITIES

1.1 Purpose

This Mandatory Procedure (MP) establishes supplemental procedures for conducting competitively negotiated source selections of \$10M or more within the Air Force (AF), and follows the numbering convention of the [Department of Defense \(DoD\) Source Selection Procedures](#), dated 31 Mar 2016.

1.2 Applicability and Waivers

This MP must be used in conjunction with Federal Acquisition Regulation (FAR) Part 15, as supplemented, to include the DFARS Part 215 and its companion resource entitled Procedures, Guidance and Information (PGI), DoD Source Selection Procedures, and related laws, regulation, and policy. As guidance, this MP also provides hyperlinks to non-mandatory best practices, TTPs, sample RFP and contract language, tailorable templates and training materials, and links to PGI 5315.3 language.

1.2.1.1 Acquisitions with an estimated dollar value less than or equal to \$50M may use price as the only evaluated factor and therefore be exempt from the [DoD Source Selection Procedures](#) dated 31 March 2016 and from this MP if all of the following conditions are met:

- 1) The requirement is non-complex and well-defined, such that consideration of non-cost/price evaluation factors (e.g., technical, past performance, etc.) would not provide any meaningful differentiation amongst proposals and would add no value to the selection of a successful offeror;
- 2) Past performance record and history will be assessed as one of the multiple standards required for a successful offeror to be determined responsible as described in [FAR 9.104](#);
- 3) Use of price as the only evaluation factor is the most advantageous approach to the government; and
- 4) The acquisition strategy approving official has determined that use of price as the only evaluated factor is the most appropriate source selection methodology for the requirement and the justification for this determination is included in the approved acquisition strategy/plan.

1.2.1.2 A waiver allowing the use of price as the only evaluated factor for an acquisition with an estimated dollar value greater than \$50M may be granted on an acquisition specific basis by the SCO upon the waiver authority's determination that the conditions at 1.2.1.1 (1)-(4) are met.

1.2.4Waivers. Waivers for solicitations valued at \$1B or more for approval by the Director, Defense Pricing and Contracting (DPC), must be forwarded through the SCO to [SAF/AQC](#) for review and processing. Waivers for solicitations above \$10M but less than \$1B must be approved by the SCO.

1.2.4.1. Waiver procedures apply only to the DoD Source Selection Procedures (CAUTION: read paragraph 1.2 of the DoD Source Selection Procedures) and this MP. The requirements of [FAR 15.3](#), as supplemented, cannot be waived as these requirements are subject to the FAR deviation process (see [AFFARS 5301.402\(2\)](#), [5301.403\(1\)\(i\)](#), [\(ii\)](#), and [5301.404\(b\)\(i\)](#), [\(ii\)](#)).

1.3 Best Value Continuum (No AF Text)

1.4 Source Selection Team Roles and Responsibilities

1.4.1 Source Selection Authority (SSA).

1.4.1.1 SSA Appointment.

SSA Designations		\$10M to less than \$100M (Note 1)	\$100M and above (Note 2)
Program Acquisition Category (ACAT) I, IA		SAF/AQ (Note 3)	SAF/AQ (Note 3)
ACAT II and III		Program Executive Officer (PEO)	PEO
Operational & Enterprise (including services EXEMPT from AFI 63-138)		(Note 4)	(Note 4)
Operational & Enterprise Services Acquisitions subject to AFI 63-138	SSA is the Services Designated Official (SDO) as designated in AFI 63-138 , Table 2.1, <u>the Services Management Agreement (SMA)</u> , if applicable, and the SDO delegation letter.		

<p>NOTES:</p> <p>1. Delegable to no lower than the Procuring Contracting Officer (PCO)/equivalent or higher position within the PEO/ requiring organization chain.</p> <p>2. Appointments in this column represent the written appointment of the SSA by the Agency Head. Delegable to no lower than one level above the PCO or equivalent or higher position within the PEO/ requiring organization chain.</p> <p>3. "SAF/AQ" includes the ASAF(A) and the Principal and Military Deputy.</p> <p>4. The SSA is the Center Commander/Wing Commander/PEO or MAJCOM/DRU/AFR CO director-level individual who is responsible for the requirement unless delegated in accordance with Note 1 for acquisitions \$10M to less than \$100M or Note 2 for acquisitions \$100M and above. A tailorable Delegation of Source Selection Authority (SSA) template is available for use, as desired.</p>			
--	--	--	--

1.4.1.2 SSA Responsibilities. In addition to the responsibilities listed in [FAR 15.303\(b\)](#), [DFARS 215.303\(b\)\(2\)](#), and the DoD Source Selection Procedures, the SSA shall:

1.4.1.2.3 Be accessible to the PCO, SSEB Chairperson and SSAC Chairperson (if applicable) to ensure that necessary leadership and guidance is provided to the SST. Promote active communication within the SST and encourage the team to raise concerns/issues.

1.4.1.2.6 See the following tailorable templates:

1.4.1.2.6.1 [Source Selection Non-Disclosure Agreement \(NDA\)](#). An NDA may be executed on an annual basis in accordance with AFFARS .

1.4.1.2.6.2 [Conflict of Interest Statement](#).

1.4.2 PCO.

1.4.2.2 PCO Responsibilities. In addition to the responsibilities listed in [FAR 15.303\(c\)](#) and the [DoD Source Selection Procedures](#), the PCO shall:

1.4.2.2.2 Consider sample RFP Section L language for [Use of Non-Government Advisors](#), [when applicable](#).

1.4.2.2.3 Manage all source selection documents, control and record all exchanges with offerors, and protect all documents (see [4](#)). Consider identifying a Source Selection Records Custodian (SSRC) familiar with the contracting process to manage all source selection documents (PCO or someone under PCO oversight). Ensure source selection material is not removed, circulated, or disseminated outside of the source selection work area without PCO review and approval. Ensure all means of electronic communications receive additional scrutiny to preclude inadvertent release of documents that contain sensitive or embedded source selection files. It is a good practice that prior to transmission of Source Selection Information to offerors via any means, the information is reviewed by a second person to preclude inadvertent inclusion of inappropriate data. Additionally, Source Selection Information transmitted to offerors electronically (e.g., via email or disc) or posted to a website must be distributed in a “locked” format, such as scanned .pdf file, .jpeg file, or other protected format, unless offerors are required to fill-in or complete portions of a document, such as Section K Representations and Certifications, or a pricing matrix. Using e-mail to transmit source selection information should be done judiciously and it must be encrypted and digitally signed. Include in the subject line the phrase “Source Selection Information – See FAR 2.101 and 3.104”. Use the [Source Selection Information Cover Sheet](#) to identify source selection information. For RFPs released after 30 November 2020, use the [SF 901 Controlled Unclassified Information \(CUI\) Cover Sheet \(AF Template\)](#). A sample [Verification of Correspondence Going to Offeror checklist](#) may be utilized, as desired.

1.4.2.2.4 Maintain in the official contract file (whether in hard copy or electronic media) all evaluation material and any related supporting information, including minority and dissenting opinions, that has been presented in any form to the SSA as an official record

that must not be altered. Updates, revisions, or changes to that evaluation information must be captured in subsequent documentation such that the original record remains distinct.

1.4.2.2.4.1 Working papers, calculations, and personal notes must be clearly identified as such and are not normally part of the official source selection record unless they include information relevant to the source selection decision and the information has not been captured in the official record. Solicit the advice of legal counsel and representatives from the Acquisition Center of Excellence (ACE) (if used) regarding the management and/or retention determination of any paper or digital document generated during the source selection. Legal counsel, the SSEB Chair, SSRC (if other than the PCO) and the PCO must review any notes, working papers, and other documents for a retention determination at regular intervals during the source selection process and upon completion.

1.4.2.2.4.2 Preserve documents and data that are not stored within the electronic official contract filing system (e.g., classified documents, product samples, electronic media) as part of the official record and identify their physical location. A sample [Source Selection File Checklist](#) may be tailored for use, as desired.

1.4.2.2.4.3 Ensure that any requests for source selection delegations are properly accomplished and documented in the source selection file.

1.4.2.2.7 Send a notice to all appropriate organizations (e.g., user or requirements personnel, public affairs offices, etc., that could be contacted by offerors or media outlets concerning the requirement or acquisition) concurrent with issuance of the solicitation announcing that a source selection is in progress. For acquisitions estimated at \$100M or more, send the notice to [SAF/AQC](#) for HAF-level notification. The notice shall:

- 1) identify the system, subsystem, service, or project involved;
- 2) identify the anticipated period of the source selection activities;
- 3) include a statement to the effect that contacts or briefings concerning the program by industry are no longer allowed outside of the formal source selection process; and
- 4) state that the PCO (include name and phone number) controls all contact or exchanges with industry/offerors and is the only person authorized to release source selection information before and after contract award.

A tailorable template for [Notice Announcing that a Source Selection is in Progress](#) is available for use, if desired.

1.4.2.2.11 Post [source selection lessons learned](#) no later than 90 days after contract award or termination/cancellation of the source selection.

1.4.3 SSAC.

1.4.3.2 SSAC Composition.

1.4.3.2.1 It is preferable that the SSAC Chairperson not be in the chain of command of the SSA.

1.4.3.2.2 For all new Milestone B (Pre-MDAP on Major Defense Acquisition Program lists) ACAT I and II competitive acquisitions, the specific composition of the SSAC should consist of senior leaders (flag rank or O-6/GS-15/NH-04 to the maximum extent practicable) from Program Management, Engineering, Finance, Legal, Contracting, Small Business, the ACE, and any other participants as determined appropriate by the SSA, who

have recent experience in the successful conduct of source selections. The SSAC may be augmented with senior leaders from the SAF/AQ staff, when appropriate, to provide additional experience and expertise. The SSAC may also be supplemented by other subject matter experts at comparable functional positions. For non-weapon system acquisitions when an SSAC is used, the specific composition of the SSAC is at the discretion of the SSA, based upon the expertise required to accomplish a successful source selection.

1.4.4 SSEB.

1.4.4.4 SSEB Responsibilities.

1.4.4.4.1.7 It is considered a best practice for the Program Manager (PM), when one is assigned, to serve as the SSEB Chairperson. It is also a best practice that the SSEB chair not serve in multiple roles.

1.4.4.4.3 For source selections without an SSAC, the SSEB Chairperson must document in the source selection plan, whether or not the SSA wants the SSEB to perform the comparative analysis of proposals and provide that analysis and an award recommendation in the SSEB Final Report. .

1.4.6 Other Advisors.

1.4.6.1 Government Advisors. Foreign Military Sales (FMS) customers and international cooperative project partners may only participate in the source selection process as advisors. The PCO must not disclose to the FMS customer any form of cost or price data that is proprietary unless the offeror authorizes its release.

1.4.6.2.2 Limitations on use of nongovernment advisors. Nongovernment advisors shall not attend the past performance portion of evaluation briefings.

2 PRE-SOLICITATION ACTIVITIES

2.1 Conduct Acquisition Planning

2.2 Develop a Source Selection Plan (SSP)

The PCO and the SSEB chair, with assistance from SSEB members, as necessary, prepare the SSP. A [Source Selection Plan](#) template is available for use, if desired.

2.2.5 Evaluation Factors and Subfactors. When using VATEP, address the decision to use, or not use, an affordability cap, along with supporting rationale for the decision. If an affordability cap will be used, describe how it will be evaluated and whether offerors whose proposals exceed the affordability cap will be eligible for award.

2.2.6 Documentation. Briefing charts shall not serve as the SSEB Initial Report, Competitive Range Decision Document, updated SSEB Initial Report, or SSEB Final Report, but may be used

to present summaries of these reports to the SSA. If briefing charts are used to comply with any other source selection documentation requirements set forth in the DoD Source Selection Procedures, a written script for each briefing must be maintained in the official (permanent) contract file. Briefings should summarize the evaluation and not duplicate the content of written reports.

2.2.9 Securing Source Selection Materials. Section 9.0 of the SSP (“Securing Source Selection Materials”) must include a plan and procedures which address the filing, protection, handling, maintenance, release, retention and disposition of all documents that constitute the complete source selection record. For those source selections utilizing an electronic system for source selection documentation, the SSP must include the process for handling documentation, such as the process for documenting the basis for any changes made to an evaluator’s finalized document. The plan must address training for all SST members to familiarize them with the plan/procedures and mechanism(s) to ensure compliance with the plan/procedures.

2.2.10 The PCO shall maintain the SSP after approval. Subsequent proposed changes to the source selection organization, to include the SSEB and the SSAC (when used), shall be documented in an addendum to the SSP and approved by the SSA unless the SSA delegates this approval responsibility to the SSEB Chairperson within the SSP.

2.3 Develop the Request for Proposals

2.3.1 Evaluation Factors/Subfactors. RFP [Section L and M samples](#) are available for use, as desired.

2.3.4.1 Cost or Price. The analysis technique(s) identified in FAR 15.404, as supplemented, for the evaluation of the proposed cost or price shall be included in the evaluation criteria (Section M or equivalent provisions of the solicitation for commercial acquisitions).

2.3.4.1.1 When used, the Probable Cost estimate is the government estimate of the cost to acquire specified goods and/or services based on each offeror’s proposed approach. The Probable Cost is based upon an analysis of each offeror’s unique proposal in accordance with FAR 15.404-1(d). Define all the components that make up the aggregate government Probable Cost and specify them in Section M (or equivalent provisions of the solicitation for commercial acquisitions).

2.3.4.2.4 Affordability Cap. When an affordability cap is established, the affordability cap must be specified in the RFP and affordability must be included either as a go/no go gate or as an evaluation criterion in the RFP. The RFP must state whether proposals that exceed the affordability cap can be considered for award.

2.3.6. Requirements that fall within the areas of traditional offeror responsibility factors may trigger the Small Business Administration Certificate of Competency (CoC) process if such requirements are evaluated on an acceptable/unacceptable basis, as a rating of unacceptable for an otherwise apparently successful business offeror equates to a non-responsibility determination. For example, issues related to facility clearance/security requirements or evaluation of professional employee compensation as an element of responsibility are areas that may trigger the CoC process for small business offerors. PCOs should consult with small business and legal counsel regarding the use and treatment of such evaluation factors/subfactors.

2.4 Release the Request for Proposals (No AF Text)

3 EVALUATION AND DECISION PROCESS

3.1 Evaluation Activities

3.1.1.5 When [FAR 52.222-46](#), Evaluation of Compensation for Professional Employees (Feb 1993), is included in the RFP, the Government shall evaluate whether all offerors considered for award understand the contract requirements and have proposed a compensation plan appropriate for those requirements. This evaluation may be accomplished through a technical subfactor to evaluate offerors' proposed management approach and or/staffing plan, or including the evaluation under the cost/price factor or as a "Volume I" proposal submission and element of proposal compliance and offeror responsibility.

3.1.1.5.1 When including the professional employee compensation evaluation as a "Volume I" proposal submission and element of proposal compliance and offeror responsibility in a source selection with small business offerors, a finding of non-responsibility due to an inadequate professional employee compensation plan for an otherwise successful small business offeror requires the PCO to engage the Small Business Administration Certificate of Competency (CoC) process.

3.2 Documentation of Initial Evaluation Results

3.2.1 SSEB Initial Evaluation. The SSEB Initial Report is used to document the results of the SSEB's initial evaluation. The rationale for initial evaluation results and assignment of initial ratings will be fully and contemporaneously documented in the SSEB Initial Report. The SSEB Initial Report shall be signed by the PCO and SSEB Chairperson after the completion of initial evaluations and prior to presentation of the initial evaluation results to the SSA. The following tailorable templates are available for use, as desired:

[SSEB Report](#)
[Initial Evaluation Briefing](#)

3.3 Award without Discussions

3.3.3 Documentation Required Prior to Contract Award. The PCO must obtain contract clearance approval in accordance with [5301.9000](#) prior to the SSA making the decision to award without discussions.

3.4 Competitive Range Decision Document

3.4.1 The tailorable [Competitive Range Decision Document](#)(CRDD) template is available for use, as desired.

3.5 Discussion Process

3.5.5 Best Practices. The PCO may provide offerors in the competitive range with their own initial ratings and results of their own initial pricing analysis or total evaluated price. When interim ratings and pricing analysis are provided prior to requesting final proposal revisions, the ratings must reflect the results of discussions with the offeror. PCOs may use the actual briefing charts used to brief the SSA as a method of disclosing an offeror's ratings and price analysis to them. The PCO must require offerors to provide proposal change pages along with their EN responses for any aspect of the proposal that will be incorporated into the awarded contract.

3.5.7 The SSEB Initial Report shall be updated, as necessary, following evaluation of offeror responses to discussions. The rationale for updated (interim) evaluation results and assignment of updated (interim) ratings will be fully and contemporaneously documented in the SSEB Initial Report. The updated SSEB Initial Report is reviewed by the SSAC (if an SSAC is used) and must include, if applicable, any minority and dissenting opinion(s). At a minimum, the report shall be updated and signed by the PCO and SSEB Chairperson prior to presentation of the pre-Final Proposal Revisions evaluations and briefing to the SSA.

The following tailorable templates are available for use, as desired:

[SSEB Report](#)

[Pre-Final Proposal Revisions \(FPR\) Request Briefing](#)

3.6 Final Proposal Revisions

3.6.3 The PCO must obtain contract clearance approval in accordance with (e)(2)(i) prior to submission of all material (e.g., Pre-FPR briefing) to the SSA to obtain approval for releasing the FPR request.

3.7 Documentation of Final Evaluation Results

3.7.1 The rationale for final evaluation results and assignment of final ratings will be fully and contemporaneously documented in the SSEB Final Report. The SSEB Final Report is prepared by the SSEB and reviewed by the SSAC (if an SSAC is used) and signed by the PCO and SSEB Chairperson after the evaluation of FPRs. The tailorable [SSEB Report](#) template is available for use, as desired.

3.7.2 The SSEB Final Report must document, if applicable, any minority and dissenting opinion(s).

3.7.3 A decision briefing, prepared by the SSEB, will generally be conducted whenever the SSA is other than the PCO. The tailorable [Final Decision Briefing](#) template is available for use, as desired.

3.8 Conduct and Document the Comparative Analysis

3.8.1 The SSAC's comparative analysis of proposals and award recommendation is documented in the Comparative Analysis Report and Award Recommendation (CAR). The tailorable [Comparative Analysis Report and Award Recommendation](#) template is available for use, as desired.

3.9 Best Value Decision

3.9.1 The PCO must obtain contract clearance approval prior to the SSA making a source selection decision in accordance with .

3.10 Source Selection Decision Document

3.10.1 The tailorable [Source Selection Decision Document \(SSDD\)](#) template is available for use, as desired.

3.11 Debriefings (No AF Text)

3.12 Integrating Proposal into the Contract

The RFP must advise offerors that the awarded contract document will reflect all beneficial aspects of the awardee's proposal and all above threshold (minimum) attributes, performance levels, or capabilities for which evaluation credit was given in the source selection process (e.g., purple or blue technical or technical/risk rating, above threshold elements proposed for valued requirements), regardless of source selection process utilized.

4 DOCUMENTATION REQUIREMENTS

4.1 Minimum Requirements

4.1.15 All briefing charts presented to the SSA (including, but not limited to, competitive range briefing charts, pre-FPR request briefing charts, and decision briefing charts) must be included in the official (permanent) contract file.

4.1.16 Evaluation worksheets and summaries shall be included in the official (permanent) contract file.

4.2 Electronic Source Selection

EZ Source is the standard Air Force documentation tool that shall be used for all unclassified competitive acquisitions valued at \$100M or more (unless waived by the CAA), or when an acquisition has been designated a high visibility program by a PEO or Center/Complex/Wing Commander. EZ Source may be used for acquisitions valued at less than \$100M. In order to ensure proper support is available to the team, PCOs must use the [SharePoint EZ Scheduler](#) to request the use of EZ Source and input information relative to their acquisition not later than 60 days prior to the projected RFP release.

4.3 Tactics, Techniques and Procedures (TTP), Samples, and Tailorable Templates

Source Selection TTPs can be accessed at the [DAF Contracting TTP Team](#) page.

Templates: A comprehensive collection of source selection samples and tailorable templates, including those listed below, are located on the [Contracting Templates](#) and [AFFARS Library Part 5315](#) pages within the Air Force Contracting Central (AFCC) SharePoint site (please note: this link requires CAC and is not available to all users.)

5 DEFINITIONS (No AF text)

6 MANDATORY AIR FORCE SOURCE SELECTION TRAINING

6.1 Purpose

This Section establishes and standardizes the mandatory Air Force source selection training process for acquisition/SSTs.

6.2 Responsibilities of Senior Contracting Officials (SCO)

SCOs must: (a) implement a robust source selection training program; (b) designate a Training Manager/Point of Contact (POC); (c) designate experienced source selection trainers; and (d) maintain current lists of the Training Managers/POCs for use at their respective locations. The lists should be updated as necessary, but at a minimum shall be updated annually. A [Designation of Source Selection Training Manager/Trainers](#) template is available for use, as desired.

6.3 Required Training for Designated Trainers

6.3.1 Designated trainers must receive “Train-the-Trainer” training and be certified as source selection trainers. Periodic “Train-the-Trainer” sessions are conducted by [SAF/AQC Field Support Team \(FST\)](#) personnel every other month via webinar; however, this training may be conducted by any SCO-designated and experienced source selection trainer. Note that this is summary-level training designated trainers and not for use by source selection teams and other individuals to satisfy the source selection training requirements set forth in paragraph 6.4.1.

6.3.2 Training Managers/POCs must maintain a record of the source selection training provided by designated trainers, including the name of the acquisition, training date, names of individuals trained, and training provided (e.g., Phase I (Acquisition Planning) or Phase II (Source Selection Execution) training).

6.3.3 Designated trainers who have not conducted source selection training within a two (2) year period must be recertified. Recertification requires that the SCO confirm the individual’s continued designation as a source selection trainer and that the individual re-complete the “Train-the-Trainer” training.

6.4 Acquisition/Source Selection Team Training

6.4.1 Conducting Source Selection Training Sessions.

Source selection training must be presented to the entire SST, including the SSA, SSAC Chair and members, PM (where one is assigned), RO, and all advisors. Independent review of source selection

training materials by SST members and/or attendance at “Train-the-Trainer” training is not sufficient to satisfy this training requirement.

Specialized executive level training modules are available for the [SSA](#) and [SSAC](#).

Phase I (Acquisition Planning) training should be presented at the earliest stage of an acquisition and covers the acquisition process up to release of the RFP.

Phase II(Source Selection Execution) training is presented prior to or immediately after receipt of proposals.

6.4.2 Training Content and Process.

The SAF/AQC FST develops and maintains source selection training modules to assist Source Selection Trainers. Trainers are encouraged to tailor the modules, as needed, to meet the unique elements of the instant acquisition.

The **Ethics, Procurement Integrity, and Conflicts of Interest** topic should be presented by the local legal advisor. Links to Ethics training material are included in both Phase I and Phase II source selection training materials. The use of locally-developed Ethics training by local legal advisors is encouraged. The length of the source selection training and the level of detail presented in either Phase I (Acquisition Planning) or Phase II (Source Selection Execution) depends on the complexity of the specific acquisition and the experience level of the SST.

6.4.3 Advance Preparation.

Effectiveness of the source selection training experience can be enhanced with advance preparation. The Defense Acquisition University (DAU) offers [continuous learning modules](#) on source selection and related topics. Some suggested DAU courses include the following:

[CLC 004](#) - *Market Research*

[CLC 028](#) - *Past Performance Information*

[CLC 132](#) - *Organizational Conflicts of Interest*

[CLM 049](#) - *Procurement Fraud Indicators*

6.5 Source Selection Training Material

The Source Selection Training Modules, Trainer’s Lesson Plans, and Resource/Reference Material are accessible by designated trainers and training managers on SharePoint at

https://usaf.dps.mil/sites/AFCC/KnowledgeCenter/source_selection_training/Forms/AllItems.aspx.

Additional training materials for teams are available in the [AFFARS Library, Part 5315](#).

6.6 Training Certificates.

Any Trainer conducting “Train the Trainer” training will provide a Source Selection Training Certificate to the Training Managers/POCs and Trainers upon completion of the source selection training. Trainers must provide the Source Selection Training Certificate for [Phase I](#) and [Phase II](#) to the personnel they train.

6.7 Source Selection Training Survey.

Following training, personnel are encouraged to complete the [Source Selection Training Survey](#). The feedback provided through the survey will enable the SAF/AQCP FST to gauge the effectiveness of its source selection training material and obtain suggestions for improvement.

6.8 Continuous Learning Points (CLP).

Designated Source Selection trainers may grant CLPs to source selection attendees. As a general rule, CLPs must be given based on the length and intensity of the training provided. Trainers may grant six (6) CLPs for each full day of instruction, three (3) CLPs for half-day, and one (1) CLP for a two-hour session.

MP5315.4 Contract Pricing

1. Proposal Instructions.

To facilitate timely awards of sole source contract actions and definitization of Undefined Contract Actions (UCA) within 180-days after issuance of the UCA, contracting officers:

- a. provide contractors with clear and concise proposal instructions, including a suspense date for proposal submission;
- b. require that contractor proposals (both prime and subcontractors) are submitted as adequate for evaluation and valid for the anticipated time required to conduct evaluation, audit, negotiation and award, with data updates provided until the conclusion of negotiations in accordance with TINA.
- c. Include DFARS provision 252.215-7009 in sole-source draft and final Requests for Proposals (DRFPs/RFPs) and RFPs for UCAs when the contract value is anticipated to exceed the threshold for obtaining certified cost or pricing data, and no exception to the requirement to submit certified cost or pricing data applies. (See FAR 15.403-1(b).)
- d. Include a provision substantially the same as L-XXX, Cost Proposal Adequacy and Structure, in the solicitation, or as a paragraph within a letter RFP, whenever DFARS provision 252.215-7009 is

included. Add paragraph (e) to provision L-XXX, Cost Proposal Adequacy and Structure, only when an electronic version of the cost proposal with active formulas (e.g., in Excel) is required. Contracting officers may tailor this provision as necessary to reflect the unique circumstances of each acquisition.

L-XXX COST PROPOSAL ADEQUACY AND STRUCTURE

NOTE: *The blue italicized text below represents instructions for the contracting officer and should be removed prior to incorporating Section L into the solicitation.*

(a) In response to this Request for Proposals (RFP), the offeror shall prepare and submit certified cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408. Further, the offeror shall (1) utilize the DFARS 252.215-7009, *Proposal Adequacy Checklist (PAC)*, in pre-submission proposal quality reviews, and (2) furnish the completed checklist as part of their proposal submission.

(1) The responsibility for providing a well-prepared and fully supported cost proposal lies solely with the offeror. The basis and rationale for all proposed costs shall be provided as part of the proposal so that the contracting officer has the information necessary to evaluate the reasonableness of the proposed price.

(2) If the offeror is unsure as to whether a checklist item is required in support of the proposal, or how to adequately comply with a checklist item, the offeror shall contact the contracting officer as soon as possible after receipt of the RFP, but in any case prior to proposal submittal, to resolve the questions.

(3) Non-compliances with the DFARS Proposal Adequacy Checklist and the additional requirements of this provision will require immediate correction. However, completion of the checklist does not relieve the offeror from the responsibility to comply with all applicable regulations and any special requirements of the solicitation.

(4) The offeror is encouraged to flow down this provision to subcontractors/affiliates required to submit certified cost or pricing data in support of this RFP.

(b) The offeror is advised that the contracting officer may find costs associated with revision/rework of inadequate cost proposals unreasonable, and will consider the nature and extent of any proposal inadequacies when assessing/negotiating profit.

(c) In order to preclude delays in negotiations and contract award, the completed PAC submitted with the proposal shall provide a clear explanation for any checklist items not included in the proposal, particularly items not provided based on any of the exceptions to TINA found at FAR 15.403-1(b) and Deviation 2018-O00009.

(d) Cost Proposal Requirements. In addition to the requirements identified in the DFARS PAC, the following also apply to the cost proposal submitted in response to this RFP.

(1) Breakout by Year. If the proposal includes more than one CLIN, the proposal shall include a breakout of CLIN prices by cost element by Contractor Fiscal Year (CFY). At the contracting officer's direction, the breakout by year shall also be provided by: *(select applicable breakouts)*

- Government Fiscal Year (GFY)
- Calendar Year (CY)

The proposal shall define the timeframe of the Contractor Fiscal Year (for example, January – December).

(2) If the proposal includes more than one CLIN/subCLIN, recurring/non-recurring costs shall be identified for each CLIN/subCLIN.

(3) When the proposal includes material costs, the proposal shall include a consolidated bill of materials (CBOM) at the total contract level in an electronic, sortable format (Excel spreadsheet or other format approved by the contracting officer).

- i. When the amounts proposed in the CBOM include application of escalation, the proposal shall identify the base value, the escalation rate(s) used, and the escalation amount associated with each item escalated.
- ii. When the proposed amount is based on historical data which has been adjusted (for example, for differences in quantity), the CBOM shall clearly identify the adjustments made to the historical data and the reason for each adjustment.

(4) All costs proposed on the basis of Cost Estimating Relationships (CER) shall be fully supported. The proposal shall identify the basis for the proposed rate, shall identify the base to which the rate is applied, and shall clearly demonstrate the calculation of proposed costs based on CERs.

(5) For any costs incurred prior to proposal submission, the proposal shall identify actual hours and cost incurred as well as hours/costs to complete and the time phasing associated with these hours/costs. This information/data shall be provided in a time-phased cost element summary format.

(6) Submission of Historical Actual Costs Incurred. *(Insert in RFPs for follow-on efforts as applicable. The contracting officer may identify specific contracts for which submission of actual cost data is required (for example, the last three lot buys of the same item), or may require that the contractor identify its most recent sales of the items to any customers, if the contractor's sales base is broader than the current buying office. Language may be tailored to request insight into specific areas of cost (e.g., sustaining engineering hours). However, the contracting officer should take into consideration the extent to which the contractor's existing business systems can support requests for granularity in reporting of actual costs incurred, as well as the potential time and cost involved in obtaining very detailed or low-level historical actuals.)*

(i) The contractor shall provide the following information for these prior acquisitions:
[contracting officer identifies the specific acquisitions for which actual cost data is required. Alternately, the contracting officer may require the contractor to identify prior and current contracts for the same items covered in this RFP.] For these contracts, the contractor shall provide the following information:

- a. contract number (including modification number if applicable) or other identifier;
- b. contract type;
- c. contract quantity;
- d. contract price; and
- e. actual cost incurred, including a breakout of actuals as recurring/non-recurring costs. If performance is not complete on any of the specified contract actions, provide an estimate to complete and the basis for that estimate.

(ii) The contractor shall also request that its top five major sole source subcontractors provide the information listed in the above paragraphs (i) a. through e. on prior contracts for items the prime is purchasing from the subcontractors for this effort. If a subcontractor's information on prior actuals is not included in the prime's proposal, the proposal should identify status and anticipated receipt date(s). If the subcontractor deems the information proprietary, the subcontractor may submit the information directly to the contracting officer.

(7) The proposal shall identify those actions where assist audits have been requested by the prime or sub-tier contractors and identify the request date and scheduled receipt date for those audits. The need for assist audits resulting from proprietary data rights assertions at any tier shall be identified to the contracting officer as soon as the offeror becomes aware of the need. Government performance of assist audits does not relieve the offeror of the responsibility to accomplish and provide its price/cost analysis of the subcontracts.

(8) If the offeror intends to request Performance-Based Payments (PBP), the offeror's proposal shall include a monthly expenditure profile, proposed events and their projected completion dates, rationale on why the proposed event demonstrates significant progress towards the completion of the end item, proposed values for each event, completion criteria for each event, and an identification of each event as severable or cumulative.

(9) Commercial item considerations:

i. The offeror's proposal shall provide support for any subcontractor Commercial Item Determinations (CID), addressing, at a minimum, the following:

- a. A description of the supplies or services;
- b. Specific identification of the type of commercial item claim ([FAR 2.101](#) commercial item sub-definitions (1) through (8)), and the basis on which the item meets the definition; and
- c. For modified commercial items (commercial item sub-definition (3)), classification of the modification(s) with supporting rationale as either:
 - 1. Of a type customarily available in the commercial marketplace ([FAR 2.101](#) commercial item sub-definition (3)(i)); or
 - 2. A minor modification of a type not customarily available in the commercial marketplace made to meet Federal Government requirements ([FAR 2.101](#) commercial item sub-definition (3)(ii)).

Note that per FAR 15.403-1(c)(3)(iii)(B), modifications that meet the definition of minor modifications of a type not customarily available in the commercial marketplace as defined in [FAR 2.101](#), paragraph (3)(ii) of the commercial item definition, will require the submission of certified cost and pricing data when the total price of all such modifications exceeds the greater of the threshold for certified cost or pricing data (FAR 15.403-4) or 5% of the total price of the contract at the time of contract award.

- ii. For proposed subcontract commercial items "of a type", or "evolved" or modified ([FAR 2.101](#) commercial item sub-definitions (1) through (3)), the offeror shall provide a technical description of the differences between the proposed item and the comparison item and thoroughly address the cost differences between the proposed item and the comparison item.
- iii. The proposal shall include, or the offeror shall make available, data other than certified cost or pricing data to establish price reasonableness of the proposed subcontract commercial item (to include any modifications not subject to the requirement to submit certified cost or pricing data) by supplying:

- a. Information/data related to competition, if competition is the offeror's basis for asserting the reasonableness of the proposed subcontract price.
- b. Information/data related to prices (sales data, market price assessments, etc.). Note that subcontractors may submit sales data directly to the contracting officer if the subcontractor deems the data proprietary.
- c. The prime contractor's or higher tier subcontractor's price analysis/price reasonableness determination for the commercial subcontract in accordance with FAR 15.404-3(b)(1) and (2).
- d. Cost information/data (cost element breakdown and supporting documentation not subject to certification in accordance with FAR 15.406-2). Instances where cost information may be required

include but are not limited to commercial items offered but never actually sold to the public, “of a type” commercial items, or when sales data is limited and/or not recent and/or not for the same/similar quantities.

Note that the preferred method of establishing the price reasonableness of commercial items is to obtain commercial sales data. It is recognized that other methods, such as market price assessment data or evaluation of cost data not subject to certification, are also acceptable when prior sales data cannot be obtained. Sales data shall (1) demonstrate sales to the general public; (2) be current; and (3) where possible, be in like quantities. Items sold to state, local, or foreign governments or items sold with applications only to state, local, or foreign government or US Government end items are not considered to be sales to the general public unless the proposed commercial item meets the FAR 2.101 commercial item definition sub-definition (8).

(10) Additional Cost/Price Proposal Requirements: *(Identify any additional requirements applicable to the solicitation, or enter “N/A”.*

- If an electronic CBOM providing traceability to the CLIN level, to WBS paragraph, etc. is required, identify that requirement in this paragraph.

- If sales data supporting price reasonableness of a commercial item is required, use this paragraph to provide specifics as to the level of detail and applicable date range(s) of the sales data.

- If a breakout of basic and options is required, detail that requirement here)

Add the following paragraph to provision L-XXX, Cost Proposal Adequacy and Structure, only when an electronic version of the cost proposal with active formulas (e.g., in Excel) is required. This paragraph may be tailored as necessary to describe the specific requirements of the electronic cost model.

(e) Submission of electronic cost model. (Tailor as needed for each specific circumstance. If electronic cost models are required for any subcontractors or affiliates, identify those requirements within this paragraph.) The proposal submission shall include an electronic cost model with active formulas demonstrating the mathematical calculation of the proposed cost (in Excel or other format approved by the contracting officer). The electronic cost model shall include build-up by year of cost in total and by CLIN/subCLIN, consistent with the yearly breakout required by paragraph (d)(1) of this provision, or as directed by the contracting officer. If applicable, the electronic cost model shall link each Work Breakdown Structure (WBS) to the applicable CLINs. The electronic cost model shall roll up to an annual and total program summary by cost element. All information supporting each CLIN should be visible and verifiable in the electronic cost model. The formulas included in the electronic cost model shall not be locked, and the model shall be editable by the Government.

NOTE: *The blue italicized text above represents instructions for the contracting officer and should be removed prior to incorporating Section L into the solicitation.*

2. Requesting data/documentation after receipt of the proposal.

a. A contracting officer request for supporting data/documentation from a contractor (whether verbally or in writing) after proposal receipt, must clearly state what data/documentation is needed and when it should be provided.

b. If requested data/documentation is not readily available because of extenuating circumstances (e.g., data that did not form the basis of the contractor's proposal), the contracting officer and the contractor should agree in writing as to a reasonable time for submittal of data.

c. Where system generated data is to be provided, the contracting officer should review the data fields to be reported before the data is generated to ensure a common understanding of what is needed.

Inform the contractor that all data requests will be tracked and will be considered open action items until the Government concurs that the data has been received and is complete.

d. If the data is not provided by the requested date or, if applicable, the agreed-to-date, and an acceptable resolution cannot be achieved, the contracting officer must elevate the issue to appropriate senior contracting management for both the Government and the contractor until an appropriate resolution is reached. The contracting officer must document the outcome of the elevation process in writing to include any revised dates for receipt of requested data/documentation. See the [DoD Sole Source Streamlining Tool Box](#) for the recommended elevation process, as well as other streamlining techniques.

e. If, after elevation, an acceptable resolution has not occurred or the contractor fails to provide the data/documentation within the revised agreed-to date, the contracting officer may take remedial actions:

- for UCAs, contracting officers should consider reducing or suspending progress payments ([FAR 32.503-6](#)) when the contractor does not submit a timely qualifying proposal or has otherwise not supported the established definitization schedule; and/or
- assign an unsatisfactory rating for a singular performance problem, such as the failure to submit a timely, complete and quality proposal (or subsequent data submissions), in connection with a UCA when the problem is of such serious magnitude that it alone justifies an unsatisfactory Contractor Performance Assessment Reporting System (CPARS) rating in the assessment of Management Responsiveness (Block 18d(1) for a Systems CPAR) or Business Relations (Block 18d for a Non-Systems CPAR). Ratings must track to the Evaluation Ratings Definitions found in FAR 42.1503(h)(4).

f. Consistent with the notice given to contractors in the provision L-XXX, Cost Proposal Adequacy and Structure , in situations when the contractor's original proposal is inadequate and requires revision or rework, contracting officers should consider whether to recognize as reasonable any contractor costs associated with the revision/rework effort and must consider the nature and extent of any proposal inadequacies when negotiating profit.

MP5315.404-1-90 Pricing Assistance or Pricing Assistance Waiver

(b) Requesting Pricing Assistance.

(1)“Full Pricing Assistance” means the price analyst accomplishes the majority of the pricing effort (e.g. pricing case) for a specific contract action which meets or exceeds the thresholds identified in AFFARS [5315.404-1-90 Pricing Assistance or Pricing Assistance Waiver](#)(a). Submit the request for pricing assistance to the Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief). The contracting officer may also request full pricing assistance for actions below the thresholds identified in AFFARS 5315.404-1-90(a) when additional pricing expertise is needed. The Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief) is the approval authority for those requests, on a case by case basis. See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#)template.

(2)“Tailored Pricing Assistance” may also be requested for actions below the mandatory thresholds (or in conjunction with a Pricing Assistance Waiver Request) and will be provided at the discretion of the Pricing Chief (or Chief of the Clearance and Program Support office where there is no

designated Pricing Chief). See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#) template. Examples of Tailored Pricing Assistance that may be available include:

- (i) Assistance with completion of the Weighted Guidelines (DD Form 1547)
- (ii) Pricing inputs for business/contract clearance
- (iii) Cost proposal spreadsheet development/modeling
- (iv) Defective pricing
- (v) Assistance with structuring Economic Price Adjustment (EPA) clauses
- (vi) Assistance with determination of final prices of incentive contracts
- (vii) Claims
- (viii) PNM review
- (ix) Assistance with/review of reopener clauses
- (x) Evaluating Performance Based Payments
- (xi) Source selection support, including drafting and/or review of Sections L and M, drafting cost sections of briefings and reports, and review of pricing volumes of proposals
- (xii) Rate and factor reviews when DCMA assistance is not available

(3) Request pricing assistance as early as practicable in the acquisition process, but no later than receipt of the proposal. For large dollar sole source acquisitions, the contracting officer is expected to consult with the pricing office (or Clearance and Program Support office) to determine which components of the **L-XXXCost Proposal Adequacy and Structure** provision described in [MP5315.4 Contract Pricing](#)-1.d, should be included in the RFP.

(c) Requesting a Pricing Assistance Waiver. Contracting officers may request a Pricing Assistance Waiver for acquisitions which meet or exceed the required thresholds identified in . Submit the waiver request to the CAA through the Pricing Chief (or Chief of the Clearance and Program Support office where there is no designated Pricing Chief). See the tailorable [Request for Pricing Assistance or Pricing Assistance Waiver](#) template.

MP5315.407-90 Contract Audit Follow-up (CAFU)

1. This Mandatory Procedure implements the following publications:
 - a. [Office of Management and Budget \(OMB\) Circular No. A-50](#), *Audit Follow-up*;
 - b. [Department of Defense Instruction \(DoDI\) 7650.03](#), *Follow-up on Government Accountability Office (GAO), Inspector General of the Department of Defense (IG DoD), and Internal Audit Reports*; and
 - c. [Department of Defense Instruction \(DoDI\) 7640.02](#), *Policy for Follow-up on Contract Audit Reports*.
 - d. Department of Defense Instruction (DoDI) 7650.02, *Engaging with the Government Accountability Office (GAO) on GAO Audits*.
- The publications above establish policy and responsibilities, reporting requirements, and follow-up procedures for contract audit reports issued by the Government Accountability Office (GAO), Inspector General of the Department of Defense (IG DoD), Defense Contract Audit Agency (DCAA), and the other internal audit agencies (such as the Air Force Audit Agency (AFAA)).
2. SAF/AQCP manages the Air Force CAFU program.
 3. CAFU requirements for DCAA audit reports:
 - a. **SCO RESPONSIBILITIES:** SCOs:

(i) Designate a CAFU focal point to manage the organization's CAFU program in accordance with these procedures. The CAFU Focal Point:

- (a) Monitors and ensures proper and timely resolution and disposition of contract audit reports within the focal point's organization.
- (b) Maintains current records on all reportable audits, from receipt through disposition. For open reports, this includes written milestone plans comprised, as a minimum, of target resolution and disposition dates.
- (c) Ensures that acquisition personnel within their organization are properly trained in the use of contract audit reports and the requirements of the CAFU program.
- (d) Ensures that the organization's semi-annual CAFU status report is prepared in accordance with these procedures using the web-based CAFU tool and User's manual located on the [Defense Contract Management Agency \(DCMA\)](#) website. When the security classification of a contract or an audit precludes the use of the DCMA website, SCOs must seek approval from SAF/AQCP to use alternate means of reporting.
- (e) Directs periodic evaluations of the organization's CAFU program to determine whether they are adequate and result in timely, appropriate resolution and disposition of audit reports.

b. **CONTRACTING OFFICER (CO) RESPONSIBILITIES:** The CO is responsible for reaching agreement with the contractor and has wide latitude and discretion in that regard. Accordingly, the procedure contained herein is structured in consonance with the independent, decision-making role of the CO and the financial advisory role of the contract auditor. COs should give full consideration to contract audit advice and must pursue timely and proper resolution and disposition of contract audit reports. Resolution of contract audit reports, other than pre-award reports, is required by OMB Circular A-50 to be accomplished within six months of report issuance. Disposition should take place as soon as possible after resolution. Per [DoDI 7640.02](#), Enclosure 3, Section 3.a, reportable audits should normally be disposed of within 12 months after issuance. The CO must document the disposition of all reported findings and recommendations in a signed and dated memorandum in accordance with [DoDI 7640.02](#), Enclosure 3, Section 3.b.

c. **TRACKING OF AUDIT REPORTS:** Contracting activities must track all contract audit reports. Tracking of non-reportable audits may be accomplished using records maintained in the contract file or in the CAFU on-line system. The designated focal point at each Air Force contracting activity maintains contract audit follow-up information on a current basis. The audit tracking information will normally be managed centrally at MAJCOM/DRU headquarters (except for HQ AFMC and SMC, where this tracking will occur at the field activity). For auditor-determined final, indirect cost rate reports, a report is considered received for follow-up tracking purposes when it is forwarded by the auditor to the cognizant Administrative Contracting Officer (ACO) for resolution and disposition.

d. **REPORTING OF AUDIT REPORTS:** Reportable audits are identified in the Glossary of [DoDI 7640.02](#). The information to be reported on each audit is identified in Enclosure 4 of the same regulation. MAJCOM/DRU/SMC semi-annual status reports will be automatically transmitted using the on-line CAFU system. The reports must cover the semi-annual periods ending 31 Mar and 30 Sep and must be completed in the on-line CAFU system no later than the end of the reporting period. If there are no audits, a negative report must be prepared and submitted to SAF/AQCP. All activities must make every possible effort to ensure the completeness and accuracy of their semi-annual reporting submission. Special attention should be focused on ensuring the most accurate data is submitted on any audit listed as unresolved and over 6 months old.

4. CAFU for GAO, IG DoD, and Internal Audit Reports: These procedures apply to audit reports which disclose contract pricing issues and are issued directly to the buying activity. COs shall provide:

- a. An initial response to the GAO/IG DoD/Internal Audit Agency within 60 days of receipt of the audit report; and
- b. A copy of the initial response and the disposition documents to the following:

- (i) SAF/FMPF, 1130 Air Force Pentagon, Washington, DC 20330-1130.
- (ii) SAF/AQCP, 1060 Air Force Pentagon, 4C149, Washington, DC 20330-1060.
- (iii) Office of the Inspector General, Department of Defense, Attn: DAIG, GAO Report Analysis, 4800 Mark Center Drive, Alexandria, VA 22350-1500.

MP5315.606-90 Receipt, Evaluation, and Disposition of Unsolicited Proposals

2019 Edition

(a) Unsolicited proposals (UP) are defined at [FAR 2.101](#) and described in [FAR 15.603\(c\)](#). MAJCOMs/DRUs/AFRCO/SMC and subordinate contracting units are considered to be the cognizant points of contact for ensuring evaluation and disposition of a UP which is received at their respective base/activity. Organizations that are part of the Headquarters Air Force (HAF) that receive a submission that is considered a UP must forward it to [SAF/AQC](#) for assignment to the proper Air Force MAJCOM/DRU/AFRCO/SMC contracting unit cognizant point of contact.

(b) Cognizant points of contact:

- (1) Coordinate and process UPs. Use a [cover sheet](#) to help protect the UP from unauthorized disclosure.
- (2) Notify the SCO for any UP that requires wider Air Force consideration.
- (3) Maintain an accurate and complete record of the disposition of all UPs received.
- (4) Ensure the appropriate evaluation office is aware of the FAR guidance for evaluating UPs and the prohibitions and rules regarding copying, disclosing, and using restricted data contained in the proposal. Limit the distribution of UPs to the appropriate number of evaluators required to conduct a reasonable review. Maintain a record of the evaluators for each UP and the dates of their evaluation.
- (5) Ensure evaluators provide supporting rationale for their conclusions and recommendations. If the recommendation is to accept the UP, ensure evaluators indicate whether funds are currently available or programmed.
- (6) Notify the offeror concerning results of the evaluation within 30 working days from receipt of the UP. When the evaluation cannot be completed within 30 working days, send the offeror an interim reply to include an estimated completion date.
- (7) Advise the offeror that the favorable evaluation does not, in itself, contractually bind the government.

MP5325.103 Exceptions

(a) When a determination of nonavailability is required by FAR 25.103 and DFARS 225.103(b)(i), the contracting officer must prepare a request for [nonavailability determination](#) and process for approval in accordance with DFARS 225.103(b)(ii). For acquisitions at or above \$1.5M, see . Each request should identify the proposed acquisition by applicable purchase request or contract number and include:

- (1) A description of the articles intended to be acquired, manufacturer's name and address, model number, and specific information pertaining to special features, performance, versatility, etc.;
- (2) A statement of the efforts made to secure either the article required or suitable substitutes from domestic sources. List all domestic sources contacted or provide reasons why domestic sources were not contacted. Additionally, list reasons, if known, why domestic sources contacted could not or would not furnish required articles or suitable substitutes;
- (3) The name and address of the proposed source (if other than the manufacturer, state reason(s) why direct purchase or purchase through an overseas contract activity is not feasible);
- (4) The reason why purchase of foreign material or from a foreign source is necessary. Identify and explain the specific portion of the mission or requirement, which is of such magnitude as to override consideration to procure a domestic source end product;
- (5) A description of the end use of item to be purchased and a brief description of the special function to be accomplished, such as performance of special tests or research work;
- (6) The identity of the purchaser;
- (7) The citation of the applicable appropriation;
- (8) When the proposed purchaser of the articles intended to be acquired is not a Government agency but is an Air Force contractor, provide the contract number, the contract type, and indicate what the disposition of the articles will be at contract completion.;
- (9) Whether or not payment is intended to be made before delivery is accomplished; and
- (10) The estimated foreign, domestic, and total cost of the proposed acquisition.

(b) In the case of inter-command acquisitions, compliance with the Buy American Statute and Balance of Payments evaluation procedures (DFARS 225.5) is the responsibility of the contracting command, except when the requiring command specifies a foreign end product, in which case, the determination is the responsibility of the requiring command.

(c) When overseas contracting support is needed, CONUS contracting activities should contact the following:

- (1) In Japan (excluding Okinawa):

374 CONS/CC
Unit 5228
APO AP 96328-5228
DSN 315-225-7099

- (2) In Okinawa:

18 CONS/CC
Unit 5199
APO AP 96368-5199
DSN 315-634-1828

- (3) In Europe:

AFICA/KU (OLAFE)
Unit 3103
APO AE 09094-3103
DSN 314-480-5910

(d) CONUS contracting activities requesting contracting support should provide, as a minimum, the information specified below to the appropriate overseas contracting activity. Contracting activities will treat all requests for contracting support on a priority basis. The requesting activity will provide:

- (1) A purchase request with description of the requirement including definitive specifications free of any defects that would otherwise preclude immediate contracting action;
- (2) Instructions for packaging, packing, and preservation, and special instructions dictated by the nature of the commodity to be purchased, if necessary;
- (3) An executed Buy American Statute Determination (DFARS 225.103(b)(i)) if the item is not exempted;
- (4) A specification or purchase description suitable for obtaining full and open competition, or necessary information, certified as complete and accurate in accordance with FAR 6.303 to support any recommendation for use of other than full and open competition;
- (5) The obligation authority;
- (6) The mailing address and telephone number of a single point of contact;
- (7) Transportation, routing, or shipping instructions. If the foreign contractor will be required to ship requirements to multiple CONUS-based consignees, detailed shipping instructions concerning each consignee will be provided to the overseas procuring activity; and
- (8) Any special distribution requirements for the contractual documents required beyond the normal distribution.

(e) Overseas contracting activities providing courtesy contracting support to CONUS-based requiring activities will, after determining all submitted documentation to be adequate, proceed with the acquisition using the certificate of conformance when appropriate. The AFO supporting the overseas contracting activity should make payments on all transactions. The CONUS requiring base should respond expeditiously to any requests of the overseas contracting activity.

[2. DNAD Exception](#)

[1. Domestic Non-Availability Determinations \(DNAD\) Under DFARS 225.7002](#)

[2. DNAD Exception](#)

1. Domestic Non-Availability Determinations (DNAD) Under DFARS 225.7002

Follow these mandatory procedures when requesting approval to purchase restricted items under DFARS 225.7002; for example, food, clothing, tents, tarpaulins, covers, cotton and hand or measuring tools. The requirement to comply with these statutory and regulatory restrictions applies to

procurements in excess of the simplified acquisition threshold. This MP provides assistance in determining the applicability of restrictions when drafting a DNAD. A DNAD must be tailored to your acquisition. In some cases it may not be possible to obtain all of the data specified in the [DNAD template](#); however, contracting officers should make every effort to do so. See DFARS 225.7002 for the entire list.

2. DNAD Exception

a. Individual DNADs

When a contractor asserts that a domestic item identified at DFARS 225.7002-1 is not available, a DNAD is required; the [DNAD](#) must be coordinated through the SCO and [SAF/AQC](#) before submission to the Secretary of the Air Force (SecAF) for approval. The SecAF may grant a DNAD if compliant items, identified at DFARS 225.7002-1, of satisfactory quality and sufficient quantity, and in the required form, cannot be procured at U.S. market prices as and when needed. This approval authority is not delegable. This exception should not be read to require that the compliant material/item must be totally unavailable (i.e., cannot be obtained at any cost). There is some cost limit that should be recognizable by a contracting officer, and that a reasonable person would agree, makes the material/item effectively “unavailable.”

b. Class DNADs

Contracting officers may continue to use OUSD (AT&L) approved class DNADs that cover food, clothing, fabrics, and hand or measuring tools for new contracts if the DNAD was signed by the Undersecretary of Defense (OUSD) (AT&L) or by a Service Secretary. The OUSD (AT&L) DNADs currently available for reciprocal use are posted on the [DCMA website](#). If a class DNAD is used, the contracting officer must prepare a Determination and Finding (D&F) approved by the SCO. This approval may not be further delegated. The contracting officer must obtain legal review to support the determination.

1. Domestic Non-Availability Determinations (DNAD) Under DFARS 225.7003

Follow these mandatory procedures (MP) when requesting approval to purchase restricted specialty metals under DFARS 225.7003. The requirement to comply with these statutory and regulatory restrictions applies to procurements in excess of the simplified acquisition threshold. This MP provides

guidance for drafting DNAD and Commercial Derivative Military Article (CDMA) Determination and Finding (D&F) documents. The DNAD or CDMA D&Fs should be tailored to the particular acquisition. In some cases, the contracting officer may not be able to obtain all of the data specified in the templates referenced below; however, the contracting officer should make every effort to do so.

2. Applicability of Commercial Derivative Military Articles (CDMA) to Specialty Metals

When a program office concludes that an item to be delivered under a prime contract is a commercial derivative military article (as defined at DFARS 252.225-7009) and the prime contractor provides the certification required at DFARS 252.225-7010, the contracting officer must prepare a [CDMA D&F](#) and coordinate the effort through the SCO and [SAF/AQC](#) for submission to the Secretary of the Air Force (SecAF) for approval. This approval authority is not delegable.

3. DNAD Exception

When a program office concludes that domestically melted or produced specialty metal cannot be procured (as described in DFARS 225.7003-3(b)(5)) to support the production of a particular end item or component, the contracting officer must prepare a [DNAD D&F](#) for specialty metals. The contracting officer must coordinate the effort through the SCO and [SAF/AQC](#) for submission to the SecAF for approval. The SecAF may grant a DNAD for an individual contract if a compliant specialty metal of satisfactory quality and sufficient quantity, and in the required form, cannot be procured as and when needed at a fair and reasonable price. This approval authority is not delegable. A Class DNAD requires the approval of the USD(AT&L).

[Release of Solicitations in Advance of Funding Availability](#)

MP5332.4 — ADVANCE PAYMENTS FOR NON-COMMERCIAL ITEMS

MP5332.470 Advance Payment Pool

Advance payment requests must be processed as follows:

- (1) The contracting officer must compile the advance payment request package in accordance with FAR 32.4 and DFARS 232.4 and submit it to the SCO for coordination. The SCO must submit the

request through [SAF/AQC](#) workflow. SAF/AQC forwards the package to [SAF/FMPA](#) for review and approval. AFRCO and SpRCO will submit the request directly to the DAS(C)/ADAS(C), as appropriate.

(2) SAF/FMPA will evaluate the request to determine if advance payments are justified. Assistance may be solicited from other sources such as contracting officers, auditors, disbursing officers, and, if necessary, field visits to the contractor or institution. For nonprofit educational or research institutions, SAF/FMPA will determine if approved advance payments will be disbursed from an advance payment pool in accordance with DFARS 232.470. When approved, SAF/FMPA will forward the findings, determinations, and authorization for advance payments and/or the advance payment pool agreement to the contracting officer. The contracting officer must ensure all applicable advance payment clauses are incorporated into each contract. The clause at DFARS 252.232-7000, Advance Payment Pool, must be incorporated into each contract that is covered by the agreement.

(3) The Air Force accounting and finance office is responsible for the disbursing functions of the advance payment pool agreement.

MP5332.7— CONTRACT FUNDING

Release of Solicitations in Advance of Funding Availability

Except for solicitations and contracts issued in accordance with FAR 32.703-2(a) and clause 52.232-18, *Availability of Funds*, follow the procedures below when issuing solicitations in advance of available funds:

- (a) The following statement must be included in any such solicitation: *“Notice to Offeror(s)/Supplier(s): Funds are not presently available for this effort. No award will be made under this solicitation until funds are available. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs.”*
- (b) When the resulting contract is to be funded by Procurement or Research, Development, Test, and Evaluation appropriations, the program/requirement must be included in the President’s budget as submitted to Congress, and the program manager must provide the contracting officer a written statement, indicating the program's inclusion. The statement must be coordinated with FM at the Center level (or equivalent) or as delegated to FM Organizational Senior Functional (OSF) that these investment funds will be used for the proposed acquisition and, although not presently available, a reasonable expectation exists that funding will be authorized and available upon enactment of the Authorization and Appropriations Acts.
- (c) For solicitations for programs funded by the National Guard and Reserve Equipment Account when the Defense Appropriations Act is signed into law, for the Air National Guard Bureau, and/or Air Force Reserve Command, the Air National Guard or Reserve program manager must confirm that funds have been identified for the acquisition.
- (d) Except for solicitations for operational contracting supply requirements less than \$1M and funded with annual appropriations, the MAJCOM/DRU/AFRCO/SMC Requiring Activity Functional Commander/Director, SCO, and Comptroller, or their appointed representatives, must jointly agree in writing to authorize the operational contracting office to issue solicitations when it is anticipated that the contract(s) will be funded, but funds are not yet available.

[MP5333.1 — PROTESTS](#)

[MP5333.104 Protests to GAO](#)

MP5333.1 — PROTESTS

MP5333.104 Protests to GAO

(a) *General*

- (1) The Air Force response to a GAO bid protest must comply with GAO's Bid Protest Regulations (4 CFR Part 21) and FAR 33.104 as supplemented. For guidance on responding to unclassified protests, follow the [Air Force Commercial Litigation Field Support Center Protest Guide](#). For guidance on responding to classified protests, follow the [Administrative Guide for Processing Classified GAO Protests](#). Both documents are also available from [AF/JACQ](#).
- (2) SAF/AQC serves as the notification point with the GAO for all protests.
Phone: (571) 256-7077, DSN 260-7077
E-mail: SAF.AQ.SAF-AQC.Workflow@us.af.mil
- (3) The Air Force Commercial Litigation Field Support Center (AF/JACQ) represents the Air Force on all protests.
Phone: (240) 612-6661, DSN 612-6661
E-mail: AF.JACQ.ContractLaw.FieldSupportCntr.Mbx@us.af.mil
- (4) The contracting officer must send any communication to the GAO through AF/JACQ with a courtesy copy to SAF/AQC and to the SCO focal point. Forward any inquiry received from an attorney representing a protestor or interested party to AF/JACQ.
- (5) The *focal point* is the designated SCO who receives communication from SAF/AQC concerning protests against Air Force solicitations or awards.
- (6) The *supporting legal office* is the office that provides legal support to the contracting activity that received the protest. An attorney from the supporting legal office will draft the memorandum of law, and otherwise support the defense of the protest. AFLOA/JAQ will provide protest guidance to the supporting legal office.

(b) *Actions upon Receipt of Protest*

- (1) SAF/AQC will notify the contracting activity when a protest has been filed with the GAO. The contracting activity must immediately notify its supporting legal office/local attorney who provides contract law advice.
- (2) The contracting officer must, within one business day of receiving the protest:
 - (i) Forward a copy of the protest to its supporting legal office/local attorney who provides contract law advice.
 - (ii) Provide a copy of the protest (or a redacted copy if the protest is designated as containing protected material) to the awardee, or if no award has been made, to all offerors who appear to have a reasonable prospect of receiving award. If no redacted copy of a protected protest was received, so advise AF/JACQ who will raise the issue with the protester.
 - (iii) Advise AF/JACQ and SAF/AQC as to all actions being taken regarding a stay of performance and any override of the stay to include:

(A) A discussion of whether a stay of performance or award is required IAW 31 U.S.C. 3553.

(B) If a stay is required IAW FAR 33.104(b) or (c), whether an override will be sought to lift the stay. (See paragraph (f).)

(C) If a stay is not required, discuss whether a suspension of performance or termination of the contract is in the best interest of the Air Force.

(iv) Send an email to [AF/JACQ](#) with the name, phone number, and e-mail address of the contracting officer and the local attorney.

(3) The contracting officer is responsible for generating the contracting officer's statement of facts. Within ten days after the Air Force receives the protest, provide the draft statement of facts and table of contents to its supporting legal office/local attorney who provides contract law advice.

(4) The supporting legal office/local attorney is responsible for preparing the initial memorandum of law, which will include a legal analysis of each ground of protest.

(5) The contracting officer must e-mail drafts of the initial memorandum of law, statement of facts, and table of contents (including a listing of any requested documents deemed irrelevant) to AF/JACQ (copying the focal point) as soon as practicable, but not later than 15 days after the Air Force is notified of the protest (or seven days from the date the express option is invoked by the GAO).

(c) Hearings

(i) If GAO calls for a hearing, the contracting activity must provide the requested witnesses and other support required by AF/JACQ. The contracting activity is responsible for funding witness travel and TDY costs.

(ii) At the request of the GAO through AF/JACQ or at the request of AF/JACQ, the contracting activity must obtain and fund court reporter services to transcribe the hearing. The cost of court reporter services is typically shared between the contracting activity, the protester, and the intervener.

(d) *Resolving the Protest*

(1) GAO Decision. If the protest goes to a written decision, the GAO will issue the decision within 100 days of the filing of the original protest. A protest decision involving protected information will be released to the parties under the protective order. A protected decision may be viewed within the government, but may not be released to, or discussed with, non-government personnel unless those personnel have been explicitly admitted to access of protected material under the protective order. Generally, those admitted to access under the protective order will be legal counsel for the protester and interveners. The GAO will issue a public redacted version of the decision at a later date.

(i) Denial or Dismissal. If the GAO denies or dismisses a protest, the protest is closed. The Air Force can proceed with all contractual actions upon notification of denial or dismissal.

(ii) Sustain. If the GAO sustains a protest, the GAO will also recommend corrective action and may recommend payment of reasonable protest costs, to include reasonable attorney fees. In some cases the GAO may also recommend payment of proposal preparation costs.

(A) Corrective action should be accomplished pursuant to paragraph (g) below. A decision not to comply with a GAO recommendation for corrective action may only be made by SAF/AQC. Any recommendation not to comply with GAO's corrective action

recommendation must be coordinated with the focal point and forwarded through the SCO to SAF/AQC and AF/JACQ within 15 days of the date of the decision.

(B) Potential costs may include attorney fees and in-house costs related to pursuit of the protest. Costs must be paid by the base or procuring activity.

(2) Alternative Dispute Resolution (ADR). Resolution of the protest may be possible through use of ADR. Outcome prediction is a form of ADR commonly used in bid protests in which the GAO advises the parties of its likely position if the protest were resolved in a written decision. Air Force policy is to follow the outcome prediction recommendations. Other nonbinding ADR procedures (including but not limited to mediation) are available and should be considered for use in appropriate cases. When considering the use of ADR proceedings other than outcome prediction to resolve a bid protest, and before initiating an ADR proceeding, the contracting officer and AF/JACQ must notify [SAF/GCR](#) and [SAF/GCQ](#) and work with those offices to identify an ADR procedure appropriate to the individual case.

(3) Withdrawal. The protester may withdraw the protest, either because of corrective action taken by the Air Force or for other reasons. Once the protester gives notice of withdrawal to the GAO and the GAO closes its file, the contracting activity can resume all contractual actions.

(e) Corrective Action

(1) Corrective action may be taken by the Air Force at any time during the protest process or upon the recommendation of the GAO when a protest is sustained. Within five days of a decision to take corrective action (either voluntary or as recommended by the GAO), the contracting officer must provide a corrective action plan through their SCO to SAF/AQC and AF/JACQ. The contracting officer must notify SAF/AQC and AF/JACQ if there are any significant changes to the corrective action plan, if the corrective action will not be completed within 60 days, and when the corrective action is complete. The focal point should be copied on these messages.

(f) Mandatory Stay of Award or Performance

(1) Statutory Requirements ([31 USC 3551-3556](#))

(i) Paragraph 33.104(c)(1) of the Federal Acquisition Regulation (FAR), in conjunction with [DoD Class Deviation - Post Award Rights](#), state that if the protest is received within the following deadlines, the agency has to withhold award or, if award has been made, immediately issue a stop work order to the awardee:

- Ten days after date of contract award;
- If a debriefing is required, five days after the debriefing date offered to the protester under a timely debriefing request and no additional questions related to the debriefing are submitted; or
- Five days after the government delivers its written response to additional questions submitted by the unsuccessful offeror.

(ii) The Air Force can override a stay in appropriate circumstances when it can show a requisite level of harm resulting from a delay of contract award or performance. A challenge to the override decision is brought before the Court of Federal Claims vice GAO.

(2) Overriding Stay of Award (protest filed before award).

(i) See [5333.104\(b\)\(1\)](#) for processing instructions.

(ii) A stay of award may only be overridden by “urgent and compelling circumstances that significantly affect interests of the United States.” These circumstances may include delays, work stoppages, or performance degradations that severely impact mission-critical operations.

(iii) All requests must include facts that establish the urgent and compelling circumstances that significantly affect the interests of the United States. The request must explain, if there is an incumbent, why the incumbent's contract cannot be extended. The request must explain what other options are available and why those options, if any, are not viable.

(3) Overriding Stay of Performance (protest filed after award).

(i) See for processing instructions.

(ii) A stay of performance may only be overridden by urgent and compelling circumstances that significantly affect interests of the United States, or where performance of the contract is in the best interests of the United States.

(iii) HCA Override . See [Override D&F Template](#). NOTE: The template contains guidance on the last few pages of the document.

(A) The request to the HCA for an override must include the findings required by FAR 33.104(b) or (c).

(B) The HCA will make a decision with respect to authorizing award or continued performance within ten days of the protest notification by SAF/AQC. If circumstances change after suspension of contract performance, the contracting officer may initiate a request to continue performance.

(C) The HCA's decision to override is not effective until a written finding is made and the agency files with GAO either a copy of any issued determination and finding, or a statement by the individual who approved the determination and finding that explains the statutory basis for the override, in accordance with FAR 33.104(b)(2) or (c)(3).

Notification should include the protester's name and the B-number assigned to the protest. Copies of the signed notice and the finding must be sent to [SAF/AQC](#). AF/JACQ will file the notice at GAO and provide copies to the protester and interested parties, as required by FAR 33.104(d).

(iv) SAF/AQC may request a briefing on technical and contractual aspects of the solicitation when an override is requested.

[MP5342.902 Bankruptcy Procedures](#)

MP5342.9 — BANKRUPTCY

MP5342.902 Bankruptcy Procedures

2019 Edition

(a) When an office (typically contracting, financial management, or legal) first learns of bankruptcy proceedings that may involve or affect the Air Force, that office must as a minimum provide notice to its supporting contracting, financial management, and legal offices. Once the contracting office and legal office are notified, they must work as a team to carry out the following responsibilities:

(1) The contracting office must furnish notice of the bankruptcy to any affected buying activities and to the Defense Finance and Accounting Service Office of General Counsel (DFAS-HGB) at the following address:

Office of General Counsel
DFAS-HGB
Defense Finance and Accounting Service
8899 E. 56th Street
Indianapolis, IN 46249-0160

The legal office must furnish notice to the Bankruptcy Branch of the Commercial Litigation Division of the Air Force Legal Services Agency (AFLOA/JAQ) at the following address:

AFLOA/JAQ
1500 West Perimeter Road, Suite 4100
Joint Base Andrews, MD 20762

Provide notice irrespective of whether any contracts have been closed, terminated, or still have performance outstanding. Make notifications via the most expeditious method, but no later than three days after learning of the bankruptcy. Notify promptly, whether or not all required information is initially available, and even in cases where it appears the notifying office, itself, received late notice. Ensure the notification includes:

- (A) The name of the debtor/contractor, including all known affiliates who have filed for bankruptcy;
- (B) The court in which the bankruptcy petition was filed;
- (C) The date the bankruptcy petition was filed; and
- (D) The case number assigned by the bankruptcy court.

(2) Make an assessment of each of the debtor's contracts and determine:

- (A) If the Air Force has a claim or potential claim against the debtor/contractor (e.g., based on unliquidated progress payments, nonconforming goods, estimated excess procurement costs, etc.), whether the contract is ongoing, closed, terminated, or otherwise in litigation.
- (B) The current status and performance experience of each ongoing contract. The contractor may request the court's permission to assume, sell, reject, or continue performing ongoing contracts. The contracting officer will need to coordinate with [AF/JACQ](#) to determine how best to pursue the most favorable course.
- (C) If the debtor/contractor is in possession of any Government furnished equipment, Government furnished property, or work in progress for which title has passed to the Government.

(3) The contracting officer and legal office must promptly advise [AF/JACQ](#) regarding all Government property in the possession of, or under the control of, the debtor/contractor. Failure to address such property in a timely manner may result in a loss to the Government if the property is lost, sold, or otherwise improperly disposed of by the debtor/contractor or the court appointed trustee. The contracting officer must suspend payments to the contractor/debtor while making the assessment of each contract. (The contracting officer must contact the appropriate DFAS payment office if necessary to halt a previous or recurring payment request.)

- (A) On those contracts where the Air Force has no claim or potential claim against the contractor, the contracting officer may resume payments to the contractor only for amounts

due post-petition. The “petition date” is the date the bankruptcy was filed with the court. Post-petition payments are only for debts based on work performed, or goods delivered, after the debtor/contractor filed for bankruptcy. If an invoice does not clearly indicate whether it is based upon pre-petition or post-petition performance, the contracting officer should contact the debtor’s/contractor’s billing office—prior to making any payments—to request invoicing that clearly identifies whether the requested payment is for pre-petition or post-petition work. It is the debtor’s/contractor’s responsibility to bifurcate invoices into pre-petition and post-petition billing where a particular job spans the bankruptcy filing date. The supporting attorney will need to assist the contracting officer in obtaining appropriate invoices if the billing is being conducted by the trustee or the debtor’s/contractor’s bankruptcy counsel. NOTE: contracting officers must work closely with DFAS to ensure post-petition payments reference only those post-petition invoices approved and forwarded by the contracting officer for payment. Be aware that DFAS’ normal business practice may be to pay the oldest invoice on file first. Inadvertent payment of pre-petition invoices, versus the intended post-petition invoices, may result in the Government’s loss of security and, ultimately, reduce the potential for recovery of Government claims.

(B) The contracting officer should continue to withhold amounts due for pre-petition performance or deliveries while AFLOA/JAQ works with DFAS and the Department of Justice to determine if there are other Government claims which should be offset against those pre-petition amounts owed. Pre-petition debts are those amounts due for work performed or goods delivered before the bankruptcy petition was filed with the court. The contracting officer must not authorize pre-petition payments without prior coordination with and approval from [AF/JACQ](#).

(C) These payment provisions augment, rather than supersede, otherwise applicable requirements regarding certification of payment requests.

(4) The contracting office and legal office must furnish information as follows:

(A) Any information required above, but not available at the time of initial reporting, must be provided to the respective office(s). Information reporting and coordination is a continuing requirement for both the contracting and legal offices.

(B) Not later than 15 days after receiving notice of a bankruptcy filing, the contracting officer must submit a report to DFAS-HGB and [AF/JACQ](#) detailing:

- (i) Each contract (by debtor’s/contractor’s or affiliate’s name) and the nature thereof;
- (ii) All potential Government claims against the debtor/contractor (by contract), including the basis for each claim and the method used to determine the amount due (even when the amount is an estimate);
- (iii) The status of each contract, including the percentage completed, the performance experience to date (including post-petition), and actions taken regarding the withholding or resumption of payments; and
- (iv) Any available information regarding the debtor’s/contractor’s intent regarding the future of each contract and the contracting officers’ thoughts regarding the same.

(C) All correspondence relative to the bankruptcy received from any source must be copied and forwarded to [AF/JACQ](#) within one business day of receipt.

(D) Any claims or requests for equitable adjustment from the debtor/contractor or trustee must be copied and forwarded to [AF/JACQ](#).

(b) The contracting officer and supporting attorney must consult [AF/JACQ](#) prior to taking any of the following actions regarding the debtor/contractor:

- (1) Issuing a show cause letter or cure notice;
- (2) Terminating a contract, either for default or the convenience of the Government, or canceling a contract or an order under a contract;
- (3) Setting off or recouping debts, or otherwise attempting to collect or recover amounts owed by the debtor/contractor;
- (4) Demanding or otherwise seeking to recover Government property;
- (5) Initiating repurchase of the goods or services provided under a contract;
- (6) Issuing a new contract to or exercising an option to extend a contract with the debtor/contractor;
or
- (7) Beginning or continuing any judicial or administrative action or proceeding against the debtor/contractor that could have been brought before the bankruptcy petition was filed.

MP 5349.501-70 Special Termination Costs

(a) Contracting officers must refer to Volume 2A, Chapter 1, Section 010214, paragraph C.2.a of [DoD 7000.14-R, DoD Financial Management Regulation](#), for Congressional notification and additional approval requirements for Special Termination Cost Clauses (STCC). Because STCCs require special notification to Congress and entail a long approval process over which the Air Force has little control, the contracting officer should allow SAF/AQC sufficient time to process requests to use DFARS 252.249-7000, Special Termination Costs (i.e., not less than 90 days prior to contract award). The request must include the following:

- (i) A detailed breakdown of applicable cost categories in the clause at DFARS 252.249-7000, (a)(1) through (5), which includes the reasons for the anticipated incurrence of the costs in each category;
- (ii) Information on the financial and program need for the clause including an assessment of the contractor's financial position and the impact of a failure to receive authority to use the clause; and
- (iii) Clear evidence that only costs that arise directly from a termination would be compensated under the clause. Costs that would be incurred by the Government, regardless of whether a termination occurs, must not be covered by a STCC.
